NEWARK, OHIO, FRIDAY EVENING, JANUARY 14, 1916

TEN CENTS A WEEK

INCREASE

Of Ten Per Cent for Both Machine and Pick Mined Coal

WILL BE DEMAND OF OHIO MINERS

When Present Wage Agreement Expires April 1

THE USE OF U. S. TROOPS

In Bringing About a Settlement of Recent Strike is Depreciated in Resolution to Be Sent to Governor of Colorado—Final Session of Ohio Mine Workers Convention Held Today

(ASSOCIATED PRESS TELEGRAM)
Columbus, O., Jan. 14.—Ten per cent increase in wages for machine and pick coal mining on a mine run basis will be demanded of operators April 1, when the present wage agreements terminate, Ohio United Mine Workers decided at the final session of their annual convention here today. This will make the rate for machine mining 51.7 cents a ton instead of 47 cents as at present. The miners voted to insist on the mine run basis of wage bargaining, despite repeal of the Green law which compelled use of this system.

This attitude of the Ohio miners will be presented to the national convention of the United Mine Workers to be held in Indianapolis next week.

Percy Tetlow, national organizer, presented a resolution which was adopted to send to the governor of Colorado, a deprecatory expression regarding the use of government forces in bringing about a settlement of the recent strike in that state.

Sympathy was expressed for an Italian miner of Colorado, for his stand for personal liberty, following his conviction for murder.

The convention adopted a resolution to be presented at the state convention of miners of Illinois, thanking them for what was termed generous help for families of strikers during the recent Ohio strike.

The resolution against preparedness, authorized yesterday was adopted by the convention today. It terms munition makers the breeders of a monster to suck the blood of the people, destroy manhood, and prevent a realization of the brotherhood of man for which the drawers declare union labor is striving. The whole scheme of war is laid at the door of those who profit from government investments in arms, and the miners declare they will have nothing to do with war for this reason.

STEEL COMPANY'S PLANT WILL COST 7 MILLION DOLLARS

(ASSOCIATED PRESS TELEGRAM)
Youngstown, O., Jan. 14.—The United States Steel corporation announced today that construction of a \$7,000,000 steel mill would be commenced at once on the McDonald site, between Niles and Girard where 132 acres of land has just been purchased, giving the company a total of 500 acres. It is stated that the plant will be completed within a year when in full operation will employ several thousand men.

FRENCH AVIATORS BOMBARD BULGARS.

London, Jan. 14.—A squadron of French aviators on Tuesday bombarded the first line of Bulgarian trenches in the Strumitsa sector, wrecking several trenches and killing and wounding a number of soldiers, says a dispatch from Athens to the Exchange Telegraph company.

Capital of Montenegro Taken by Austrians Whose Numbers Overwhelmed Few Defenders

(ASSOCIATED PRESS TELEGRAM)
Vienna, Jan. 14.—Via London.—The capture of Cetinje, capital of Montenegro, was announced by the war office.

The fall of Cetinje before the invading Austrian forces which greatly outnumbered the comparatively small Montenegrin armies, was regarded as a matter of only a short time after the capture by the Austrians of Mt. Lovcen. Cetinje is only six miles from that stronghold. The present location of the Montenegrin capital is uncertain, but it is assumed the seat of government was removed to some point in the interior when it became apparent that Cetinje was in peril.

Accused of Mariticide

Mrs. Elizabeth F. Mohr.

(ASSOCIATED PRESS TELEGRAM)
Providence, R. I., Jan. 14.—Corroboration of the testimony given yesterday by Wm. F. O'Neil, chief inspector of the Providence police that Cecil V. Brown and Henry H. Spellman had told the police they had been hired by Mrs. Elizabeth F. Mohr to kill her husband, Dr. C. Franklin Mohr, was sought by the state in the murder trial of the three today.

Thomas E. Robinson, chief of police of Barrington, the town in which Dr. Mohr was shot was to give his version of the statements made by Brown and Spellman.

WILLIS GOT NO MENTION FROM REPUBLICANS

(ASSOCIATED PRESS TELEGRAM)
Columbus, O., Jan. 14.—Members of the Republican state central committee met here this afternoon expecting to adopt a call for the state convention to be held in Columbus, June 14, one week after the national convention. The apportionment of delegates to the state convention is to be the basis of one for each 500 electors, or fraction of more than 250, according to the resolution prepared by National Committeeman Sherman Granger for presentation to the committee.

Delegates to the state convention will be elected at the April primaries.

Many committee members today favored adoption of a resolution endorsing the administration of Governor Willis. Others protested mildly against this course on the ground that it would be better tactical policy to delay this endorsement until a later date.

The committee today set June 21 as the date for the state convention of the Republican party.

The convention will be held in Columbus.

The committee fixed as a basis for representation at the state convention one delegate from each 500 Republican voters in each county.

County central committeemen were ordered to arrange districts within their counties from which delegates will be elected in accordance with the rule on representation.

There was a contest in the committee over the adoption of this rule. Many favored a proposition to allow the county chairman to decide whether delegates would be selected from districts or at large within their counties. The selection of June 21 instead of June 14 as originally proposed by National Committeeman Granger was brought about when it was stated that the date of June 14 might find the Republican national convention which meets in Chicago June 7, still in session.

No resolution endorsing the state administration was offered at today's meeting of the committee.

There have been conflicting reports as to the whereabouts of King Nicholas, but he and the officials of his government probably have taken refuge in the mountains.

With Cetinje in the hands of the Austrians, the Montenegrins are hemmed in on almost every side and unlike the Serbians, have little opportunity to retreat beyond the borders of their country.

It is doubtful whether they would be able to escape into Northern Albania and should they do so they would be opposed by the hostile tribes of that region.

Cetinje is a small and unimportant coast town. Its population twenty years ago was less than 3,000. It is situated in a narrow valley at an elevation of 2,000 feet.

NO CHANGE

In Policy of Administration Toward Mexico Is Contemplated

NO INTENTION ARMED INTERVENTION

Carranza Will Be Given a Chance First

TO PUNISH THE BANDITS

And Demonstrate His Ability to Restore Order—He Sends Word That Bands Are Being Pursued By His Troops, and Condone Punishment is Promised When Captured.

(ASSOCIATED PRESS TELEGRAM)
Washington, Jan. 14.—Senator Works, Republican of California, today, introduced a resolution authorizing and directing the President to intervene in Mexico, to establish and maintain a government until it is safe to withdraw.

GENERALS EXECUTED.

(ASSOCIATED PRESS TELEGRAM)
El Paso, Jan. 14.—Generals Jose Rodriguez and Almeida were executed at Madera shortly after their arrest, according to a dispatch received by the Mexican consul from General Jacinto Trevino today. Andreas G. Garcia, Mexican consul, declared today in answer to formal inquiry that no armed expeditionary force of Americans would be permitted to enter Mexico to run down Villa and his bandits.

(ASSOCIATED PRESS TELEGRAM)
Washington, Jan. 14.—At today's cabinet meeting it was decided that the present policy would be maintained and General Carranza would be depended on to punish the Villa bandits who killed American citizens.

No formal announcement was made but officials close to the President declared the administration had no intention of armed intervention into Mexico at present.

The view was reiterated that Carranza should be given an opportunity to demonstrate his ability to restore order. This was encouraged by a telegram from Carranza to his ambassador here promising every effort to run down the bandits.

The attacks on the administration in the senate and house were gone over at the meeting and Secretary Lansing presented reports from the border.

It was generally agreed that beyond making the representations already sent to Carranza with which he has promised to comply, no further steps should be taken at present. Whether each member of the cabinet agreed with that view was not disclosed.

Even should the attack on the administration continue in congress it was said by officials that the president will stand by his policy of giving the defacto government in Mexico an opportunity to show whether it can control the situation.

Carranza's promises will be accepted by the administration in good faith. The president and members of his cabinet were represented as being deeply shocked over the murder of Americans but as believing that the Carranza authorities should be able to control the situation.

General Carranza today telegraphed his ambassadors here as follows from his headquarters at Queretaro:

"The murderous attack on the passenger train near Chihuahua was made by the only remaining band of outlaws in that region. This band is being pursued by my troops with a view to insure its capture whereupon condign punishment, which their crime deserves, will be applied to every guilty participant."

General Carranza's despatch was the first direct assurances that he will comply with the urgent representations of the United States government.

Upon the success of the steps he takes, the next move in the Mexican situation seems to depend.

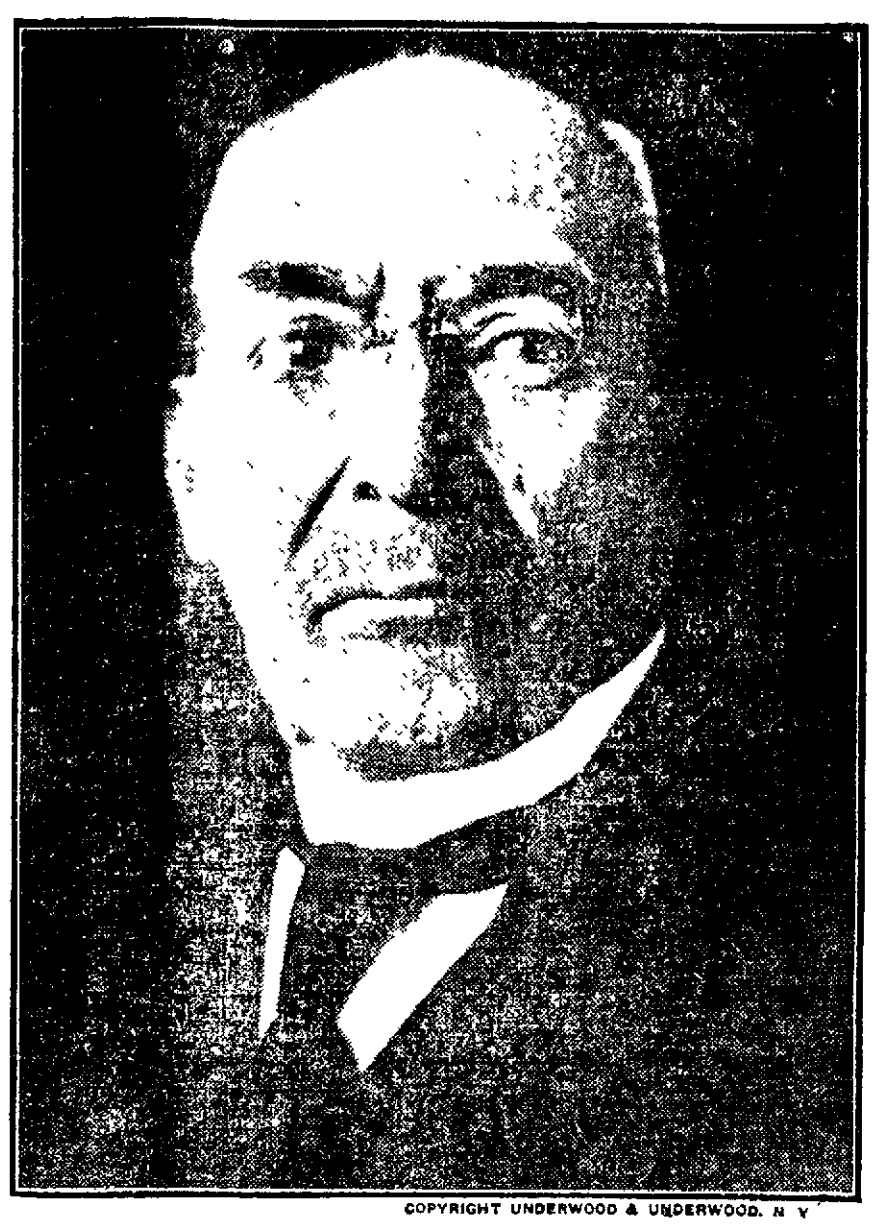

After chairman Stone of the senate foreign relations committee, had discussed the situation with the president, he returned to the senate chamber and again expressed the view that the United States should not move toward armed intervention until the Carranza government had demonstrated whether it was capable of controlling the country.

Senator Works, Republican, introduced a resolution proposing armed intervention and declared that congress should share with the president the responsibility for whatever is done.

State department dispatches added practically nothing new to the situation in Mexico.

Huerta's Burial in Mexico, From Which He Was an Exile, Being Considered by Friends

(ASSOCIATED PRESS TELEGRAM)

El Paso, Texas, Jan. 14.—Funeral arrangements for Victoriano Huerta, who died here last night had not been announced early today. The possibility of burial in Mexico, the land of his birth, and from which he was an exile, is being considered.

General Huerta had been ill for nearly six months, his illness first becoming marked soon after his incarceration as a federal prisoner at Fort Bliss last July. Attending physicians attributed death to a complication of liver complaints, which caused a general breakdown.

Only two days ago a federal grand jury in San Antonio, Texas, returned indictments against Huerta charging conspiracy to violate the neutrality laws of the United States.

General Huerta was a professional soldier, and as such he had, up to the overthrow of President Francisco Madero, been known for his loyal support of the existing governments. He fought loyally for President Porfirio Diaz until his fall, and when Diaz was no longer chief executive, Huerta fought for Francisco de la Barra, the provisional president.

After Francisco Madero was elected Huerta found it to be his duty to support one who had so long fought as a rebel. His loyalty was not challenged until the Felix Diaz revolution in Mexico City in February, 1913, when the Madero government was completely overthrown and Huerta himself elevated to the presidency.

Huerta devoted himself to the military career at a very early age. Born at Chihuahua in 1854, he entered the Military Academy at Chapultepec at the age of 17 and passed through the full course to graduation in 1875, when he was commissioned second lieutenant of engineers. During his academic term

he was known for his predilection for scientific studies, particularly astronomy and mathematics.

When Porfirio Diaz began his reorganization of the Mexican army Huerta was promoted captain of engineers and while holding this rank devised the plan for a Mexican general staff corps. He was an active member of the military map commission created to draft a staff map of Mexico on a large scale and he had charge of all the astronomical work of the commission, leading exploring and surveying parties over the wilder regions of the republic.

During the ensuing year Huerta saw much active service. In 1901 he left the staff and took command of the infantry in the campaign against the Yaqui Indians. After this campaign he was again put in charge of the general staff's topographical work in Sonora. He participated in subsequent Yaqui campaigns and also in the campaign in Yucatan against the Maya Indians. As a reward for his Indian service, Huerta was given the rank of brigadier general and once more detailed to the general staff.

Huerta commanded all the detached government forces in the state of Guerrero at the beginning of the Madero revolution. When Madero acceded to the presidency, General Huerta was sent back into Morelos with a force to put down the Zapata rebellion. As a result of ill-feeling growing out of this campaign, Huerta was recalled. Subsequently he led the army sent against Orozco and was in command at the battle of Bachimba. For this service he was promoted to major general. He was then recalled to the capital and given leave of absence because of an affection of the eyes, and thus did not take part in the suppression of the first uprising led by General Felix Diaz in October, 1912.

In the second Felix Diaz revolution, which resulted in the overthrow of the Madero government, Huerta was immediately called to active command as the senior ranking general, then in the capital. He escorted Madero from Chapultepec Castle to the palace on the first of the 10 days' fighting and was placed in entire command of the forces of the government. He directed the subsequent fighting, and the conduct of these operations led to severe criticisms on the part of Madero's friends. It was charged that he did not carry out the operations with any spirit, that he disobeyed the commands of President Madero, and that before General Planquet entered the city it was this conference which sealed the fate of the Maderos.

Huerta was the moving spirit in the consummation of the plot that resulted in the seizure of the person of President Madero and his brother Gustavo.

The assassination of President Madero and his brother followed and in the meantime Huerta, with the military behind him, had been recognized as the provisional president.

CASH PAYMENT TO SCHOOL CHILDREN FROM FIRE FUND

Pittsburgh, Pa., Jan. 14.—The first payment of the savings of the 41,000 school children who were deposited in the closed Pittsburgh bank and Savings and whose accounts were taken over by Henry C. Frick, will be made Monday, according to an announcement made yesterday. The Savings total \$167,000 and all payments will be in cash.

MANY MISFORTUNES FOLLOW FAMILY OF MR. WILLIAM EVANS.

Many proverbs tell us that troubles never come singly, and as to their authenticity Mr. and Mrs. William Evans, who reside near Hebron, now have no doubt. For the past sixteen weeks life to them has been but a series of misfortunes.

At that time five of their family of seven children were taken ill with scarlet fever, and the family, with the exception of the two children who did not have the disease, was quarantined. The five fever patients recovered and the house was fumigated and the other two children brought home. One of the other children then became ill with the fever and was critically ill for days. A week ago Saturday, the other little girl, Marion, aged 13, was standing in front of an open grate when her clothing caught fire and she was terribly burned.

To add to the misfortune of it all, Mrs. Evans, who is the daughter of Judge J. M. Swartz of Granville, was removed to Grant Hospital in Columbus this week. She underwent a very serious operation on Tuesday and her condition is extremely critical.

IMPERATIVE

Necessity for Montenegro to Make Some Arrangement With Austria

SPECULATION AS TO ITALY'S ATTITUDE

In Not Using Superior Fleet Against Austria

BEING COMMENTED UPON

Though Experts Admit Not Enough Information is at Hand Upon Which to Base a Judgment—News of the Military Operations in Galicia is Being Awaited With Much Interest.

(ASSOCIATED PRESS TELEGRAM)

London, Jan. 14.—It is authoritatively announced today that the reported offensive of the Teutonic allies against Saloniki did not occur. The rumors that the attack had been begun against the forces of the allies, apparently originated in the activity of the French in blowing up the bridges connecting Saloniki with the road over which the attackers would normally travel. Bridges were destroyed by the French not only at Demir Hissar, on the Struma in the neighborhood of Serres, but also at Kilindir, south of Doiran. All the bridges destroyed were in Greek territory.

The rumors that Austria and Montenegro have suspended hostilities for the purpose of discussing arrangements whereby further warfare on Montenegrin soil should be stopped, may be based simply on the fact that the Austrian advance in Montenegro has become so slow that suspicion of a suspension of hostilities is naturally aroused. Many military critics, however, are of the opinion that Montenegro is now in such a position that some form of arrangement with her adversary has become imperative. Speculation is rife as to the attitude which Italy has adopted with regard to the invasion of Montenegro by the Austrians which constitutes a grave menace to Italian interests. The fact that Italy's superior fleet did not prevent an Austrian squadron from assisting in the reduction of Mt. Lovcen, which dominates the harbor of Cattaro, is being commented upon, though experts admit that there is not a sufficient basis of information from which to draw deductions in the matter and suggest that Italy's action in the present juncture should be awaited before judgment is passed, and that action they point out, would naturally be kept secret as long as possible.

News of the developments in the military operations in Galicia and Bessarabia is awaited with much interest here and it is observed that both sides are unusually reticent with regard to the operations. Austria usually sends out the first information on the military activities in that region but beyond a general review of the Russian offensive movement she gives today but little light on the happenings on her eastern front. The Austrian military authorities affirm that the sole result of the Russian offensive to date has been the pushing back of one Austrian battalion for a few hundred yards.

BODIES OF CREW DUTCH STEAMER ARRIVED TODAY

(ASSOCIATED PRESS TELEGRAM)
London, Jan. 14.—The Dutch steamship Prinzes Juliana arrived at Gravesend today, bringing the body of the captain and seven members of the crew of the Dutch steamer Maashaven which was abandoned on fire, after striking a mine. A Lloyd's despatch from Rotterdam says that other members of the crew were saved.

WARM WEATHER PROMISED FOR MIDDLE WEST

CONTINUED COLD HOWEVER IS PREDICTED BY COLUMBUS WEATHER BUREAU

For Newark and Vicinity, With Further Drop Tonight to the Zero Mark.

(ASSOCIATED PRESS TELEGRAM)

Columbus, Jan. 14.—The center of the present cold wave, which brought a minimum temperature of seven degrees above zero early yesterday morning, is due in this part of Ohio tonight, and will send the mercury in thermometers slightly below the zero mark, according to the Ohio weather bureau. It was the arrival of warm breezes from Lake Erie that prevented zero weather in central Ohio last night, the director said.

Yesterday was colder by several degrees than any other day of the winter, but the forecast says today will be colder and the night colder still. However, he expects no winds tonight, and clear skies. It will be slightly warmer tomorrow.

WARMER TEMPERATURE PROMISED CHICAGO BY WEATHER BUREAU.

(ASSOCIATED PRESS TELEGRAM)
Chicago, Jan. 14.—The cold weather which has prevailed in the middle west for the last 36 hours continued early today, but the weather bureau predicts higher temperature before the end of the day. In this city at 7 a. m. street thermometers in downtown districts registered four degrees below zero.

Railroad traffic west of Chicago is still far from normal, although reports from Iowa and Minnesota where the most serious trouble was encountered from the storm, state that conditions are improving.

The municipal lodging houses of the city all were filled last night and many homeless men slept at police stations.

RELIEF FROM COLD NOT IN PROSPECT AT KANSAS CITY.

(ASSOCIATED PRESS TELEGRAM)

Slightly moderating temperatures were predicted for today but there (Continued on Page 2, Col. 4.)

Underground Explosions in Detroit Tunnel Caused Panic in Street Car; None Injured

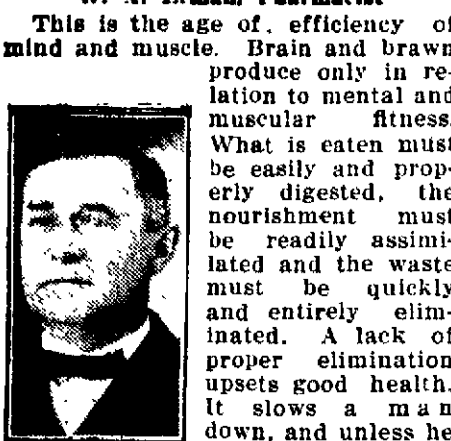

Detroit, Mich., Jan. 14.—Fire early today in a tunnel of the Edison Illuminating company, the main artery of its downtown plant, caused several underground explosions, principally on State street, brought about a panic in a crowded street car and cut off power, light and heat in many of Detroit's largest hotels, office buildings and stores. The mercury registered seven degrees above zero. For several hours after the accident there was no heat and it was thought there would probably be no light and power before late in the day. An overloaded cable, which melted, caused the trouble. A short-circuit followed and with that the water main, which supplies the plant of the Central Heating company broke. In the meantime the insulated cables in the tunnel caught fire, the underground passageway became filled with gas,

explosions followed, and manhole covers were sent flying in the air. So violent were the explosions, in some places that large buildings trembled and windows were broken. One of the manhole covers shot up directly in front of a crowded street car. The car was stopped instantly, throwing some of the passengers out of their seats and two women became hysterical. When all of the passengers had rushed through the exits to the street it was learned however that no one was seriously hurt.

With heat and light unavailable, guests in the hotels suffered greatly during the cold morning. In several office buildings no elevators were running and in inside offices candles and kerosene lamps had to be used for lighting purposes.

Among the public buildings on heat and lights were the library and police headquarters.

MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of Salts if Back hurts or Bladder bothers—Meat forms uric acid.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night, when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jass Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jass Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

COMB SAGE TEA INTO GRAY HAIR

Ladies! Try this! Darkens beautifully and nobody can tell—Brings back its gloss and thickens.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant; remove every bit of dandruff, stop scalp itching and falling hair. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

GERMAN SAILORS EXAMINED AS TO THEIR IDENTITY

ASSOCIATED PRESS TELEGRAM
Philadelphia, Jan. 14.—Four German sailors, two from the German steamer Rhein, tied up at Baltimore since the European war began, and two from the German steamer Kiel, at South Port, N. C., are detained at the immigration station at Gloucester, N. J., for examination to determine whether they are in this country in violation of the immigration laws.

The four men were taken into custody at Wilmington, Del., last night by Government agents. Two were working in a textile mill and the other two were employed on a government dredge.

Immigration officials denied the sailors escaped from the interned German warships at Norfolk.

The men detained at Gloucester, the immigration station, port of Philadelphia, will be given an examination with regard to their admission to this country and a report will be made to the department of labor at Washington.

NO CHANGE

(Continued from Page 1.)
Wilson. He said he was gathering information of the administration's attitude with which to meet attacks in the senate.

Senator Stone said after his conference that he did not expect American troops would be sent into Mexico, unless there were further development to force it.

He considered that the Villa element enraged by the recognition of Carranza, was determined to attack Americans to force intervention.

He plainly indicated that the administration will look to Carranza to control the situation and punish the bandits.

Senator Stone said there was no present intention of calling a meeting of the foreign relations committee to consider the pending resolutions proposing interference in Mexico. White House officials indicated that the resolution of Senator Lewis of Illinois, the Democratic whip authorizing the president to use the armed forces was introduced without their knowledge.

"It would be monstrous for the United States to go to war in Mexico at such a time as this," Senator Stone declared after his return to the capital. "I was the original war man in the senate when there was no organized government recognized by this country. But now we have recognized a government and it would be absurd to rush in without giving that government a chance to suppress and punish the bandit bands that have murdered American citizens."

"We know these bandits are seeking blood of Americans for revenge. I think that Americans who venture into such places and Americans who venture forth on belligerent ships into war zones are committing a crime against the government whose protection they seek. Of course we must try to protect them. They have a technical legal right to go into dangerous places, but they should not do it if possible to avoid it and thus embarrass the United States."

"I am not convinced that it will not be necessary to go into Mexico, but this is an absurd time to talk of war."

General Carranza's ambassador here today, suggested to his government that all Americans in dangerous districts be compelled to come into garrisoned places where Carranza troops can protect them.

Secretary Lansing asked Mr. Arredondo to request General Carranza to provide at once trains and guards for the removal of Americans who wished to leave endangered localities. Mr. Arredondo forwarded the request with his endorsement and his own suggestion that Americans in danger be compelled to come into a safety zone even if it be necessary to force them to do so.

ORDER RESTORED IN EL PASO AFTER 3 DAYS OF TURMOIL

ASSOCIATED PRESS TELEGRAM
El Paso, Texas, Jan. 14.—Vigorous action by the police, aided by United States soldiers in this morning restored order in this border town, for three days in turmoil growing out of the massacre of eighteen foreigners, most of them Americans, by bandits in Western Chihuahua last Monday. Today sentries were stationed on all the principle street corners. Despite efforts of the municipal authorities to control the demonstration against Mexicans, apprehension was felt for their safety.

The Mexican quarter was invaded and the foreigners sought shelter from enraged Americans.

One hundred and fifty arrests were made during the night.

The disorder started early in the evening when a squad of soldiers in double column marched down El Paso street and declared they intended "to clean the street" of Mexicans. Every Mexican encountered was bowled over. If he resisted he was overpowered and beaten.

General Pershing ordered four companies of the Sixteenth United States Infantry to take charge after it was seen that the police were unable to cope with the situation.

HOW TO BE SLIM

If you are too fat and want to reduce your weight 15 or 20 pounds, don't starve and weaken your system, or think you must always be laughed at on account of your fat, but go to any good druggist and get a box of Oil of Kora capsules. Take one after each meal and one before retiring at night.

Weigh yourself once a week and note what a pleasant and reliable method this is for removing superfluous fat from any part of the body.

It costs little, is absolutely harmless and in a few weeks trial should convince anyone that it is unnecessary to be bothered with even a single pound of unsightly fat. W. A. Erman, Evans Drug Store can supply you.

INCRIMINATING CORRESPONDENCE UPON VON PAPEN

London, Jan. 14.—Copies of correspondence seized from Captain Franz von Papen, recalled German military attaché at Washington when he reached Baltimore on his way to Germany have been turned over to the American embassy for transmission to the state department. They show that Captain von Papen made frequent payments to persons charged with the responsibility for blowing up munition works and bridges in the United States.

One entry shows that Captain von Papen gave \$700 to Werner Horn, who was arrested for blowing up a Canadian Pacific railway bridge at St. Croix, Maine. The day before this check was issued the German embassy paid \$2,000 into Captain von Papen's account.

Captain von Papen's check stubs, bank books and letters from his bank, the Rigas National Bank of Washington, show about 500 items, many of which had to do with routine expenditures. Others, however, revealed payments to various persons who have figured prominently in the activities of German agents, and to at least one spy who committed suicide in a cell in an English prison.

Cyrus and the Persians.

The Persians of the time of Cyrus were Zoroastrians. The Persian religion was primitively monotheistic, and they allowed no idols or other material symbols of deity in their temples. There was less enmity on the part of the Jews against the Persians than against the other great nations with whom they came in contact, due probably to the monotheism which characterized the Persian religion. So Cyrus, whatever else may be said of him, was certainly not an idolater.—Christian Herald.

was no expectation of general relief before the end of the week. Iowa, Nebraska, Kansas, Missouri, and Oklahoma slept last night with the mercury still below the zero mark. A temperature of minus-seven was recorded here early today.

WARMER WEATHER IN NORTHWEST IS NOTICEABLE TODAY.

ASSOCIATED PRESS TELEGRAM
St. Paul, Minn., Jan. 14.—Gradually rising temperature throughout the central northwest states today brought relief from the intense cold of the last two days and enabled railroads to resume near normal train service. In the twin cities, the temperature was 17 degrees below zero early today as compared with 31 below twenty-four hours previous.

COLDER IN NEWARK IS THE PREDICTION.

The temperature early this morning was several degrees colder than yesterday at the same time, the thermometer registering six degrees above at 5 o'clock and gradually rising a few degrees as the day advanced. There were occasional snow flurries throughout the day and shortly before noon the sun came out but only stayed for short intervals. The weatherman predicts more clouds for night and states that it will be fair and warmer Saturday.

WEATHER CHANGES EXPECTED TONIGHT.

ASSOCIATED PRESS TELEGRAM
Washington, Jan. 14.—The cold wave over the east is expected to reach its climax tonight when unseasonably low temperatures are predicted in the Atlantic states but it will begin to pass tomorrow morning. Warmer weather north, in from the west is expected to raise the temperature tomorrow and Sunday.

Lost His Bearings.

It was an English skipper of the olden time who, having knowledge beyond the seeming needs, as he could read and use the charts, was dispatched to Rotterdam. The skipper had never been to Rotterdam before, so after getting over the bar and well away to the east he produced his charts and made a learned inspection, but the charts had been a long time in the locker and circumstances combined to alarm him extremely. He went up on deck and called to his mate, "Put her about; the rats have eaten Holland!"

Thin People Can Increase Weight

Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy "stay there" fat should try eating a little Sargol with their meals for a while and note results. Here is a good test worth trying. First weigh yourself and measure yourself. Then take Sargol—one tablet with every meal—for two weeks. Then weigh and measure again. It isn't a question of how you look or feel or what your friends say and think. The scales and the tape measure will tell their own story, and many thin men and women we believe can easily add from five to eight pounds in the first fourteen days by following this simple direction. And best of all, the new flesh stays put.

Sargol does not of itself make fat, but mixing with your food, it aims to turn the fats, sugars and starches of what you have eaten, into rich ripe fat producing nourishment for the tissues and blood—prepare it in an easily assimilated form which the blood can readily accept. Much of this nourishment now passes from your body as waste. But Sargol works to stop the waste and do it quickly and to make the fat producing contents of the very same meals you are eating now develop pounds and pounds of healthy flesh between your skin and bones. Sargol is safe, pleasant, efficient and inexpensive. Evans Drug Co., W. A. Brann 23 N. Third street and other leading druggists in this vicinity sell it in large boxes—forty tablets to a package—on a guarantee of weight increase or money back as found in each large box.

THE PEOPLES MARKET CO., 2ND & 3RD ST.

PENSION BILLS FOR BENEFIT OF 2 LOCAL MEN

(Special to the Advocate.) Washington, Jan. 14.—The House of Representatives passed two of Congressman William A. Ashbrook's private pension bills this afternoon. One of these bills favors William A. Parr of Liberty township, Licking County, Ohio, the other John W. McDaniel of St. Louisville. Mr. Parr is to receive \$60 a month and Mr. McDaniel, who is blind and helpless, will get \$50 a month.

FUNDS FOR SAFETY DEPT. WORRY CITY FINANCE DEPARTMENT

Newark's safety department is running behind about \$5000 each year, according to the city officials, and a remedy is being sought by the safety director and the finance committee of the city council. Just what remedy will be applied has not been determined and pending the decision police officers are much worried for fear a cut in salaries or a reduction of the force will be the means employed in an endeavor to evade the deficit for 1916.

Although the city has no more men than is needed for the proper policing of the city, it may be found necessary to reduce salaries or cut down the force.

The finance committee and members of council have thoroughly discussed the matter but the appropriation ordinance for the first six months of 1916, which goes to council next Monday night, will include appropriations for the present force.

The deficit is said to have existed each year since the amount of the city's portion of the saloon tax was reduced when the number of saloons were cut under the new licensing system.

If any one has a suitable remedy which will satisfy officials and police officers, it will no doubt be gladly received by the city officials.

SUPERINTENDENT LAKEWOOD VISITS NEWARK SCHOOLS

Superintendent Charles J. Lynch, of the Lakewood Public Schools, suburban to Cleveland, visited the Newark Schools today as the guest of Superintendent Wilson Hawkins. Spending the morning at the High and the afternoon in the grade schools.

Lakewood recently issued \$500,000 bonds for new school building purposes, and Dr. Lynch came to Newark to get some idea of what Newark has done along that line in the last few years.

GOT \$5 ON CHECK FOR \$41; PICKETT MAY SERVE TIME

William Pickett, well known locally, was arrested yesterday afternoon by Officer Gorman on a charge of realizing \$5 on a check for \$41 which proved to be worthless when presented to the bank. The complaint against Pickett was made by a man named Walker, residing in West Newark who said he advanced \$5 on the check and found it worthless when he presented it at the bank. Pickett is under suspended sentence to the penitentiary for a former check operation and the police department turned him over to Sheriff Swank. The suspension may be revoked.

Newark Chinese Started for Home, But Hearing of the Disturbance in Native Country, Remained in 'Frisco

Left to Right, Chan Wos, C. Harley Hop Sing; Lee Pan.

The recent trouble which arose in China between the Republic and the Monarchy, in which several important state officials have been assassinated, has caused Charley Hop Sing, of 51 West Main street, to abandon his trip to his native country.

Two months ago Charley packed his trunks, posed for his picture bade his many friends in Newark adios and swung onto the platform of a Pennsylvania train headed 'Frisco' way. Arriving in San Francisco, Charley met some old friends and lingered. His boat passage secured, he bade his Frisco friends good-bye and started for the boat pier.

On the way to the boat, Miss Fete took a hand in Charley's affairs and caused to be sent to this country word of the dissension in the Chinese Republic. Charley was

about to board the boat when the news reached him. With grips in hand, he stood for several minutes looking out into Frisco Bay. His disappointment was pathetic.

Before him arose a picture of the horrors of the boxer uprising—the death of his parents—and his exilic from the land of his birth. Slowly he turned his back upon the bay and retraced his steps to the lodging of a friend.

America to him never seemed more beautiful. He was an American citizen and free from the dictation of his emperor. A friend offered him a position in his drug store. Charley accepted and now is daily seen back of a counter of a San Francisco soda grill. Some day he will return to Newark and probably to his old place of business, the Charley Hop Sing laundry, 51 West Main street.

BROWN ESCAPES INJURIES WHEN AUTO OVERTURNS

Edward Brown, of Gamo, avenue this city, well known teamster, is minus a \$2200 Maxwell automobile and several patches of skin from his face, as a result of an automobile accident near Zanesville and Fred Helphrey was taken in a police ambulance to Zanesville for treatment. The automobile is a wreck and Brown turned the wreck over to Policeman Fred Aiter with the remark that it was his fourth and last automobile.

The accident was the result of a bursted tire on another machine. This mishap occurred on the bike near Zanesville and in front of Brown's machine which was acting as a convoy for a string of wagons hauling bridge material for some new work in Muskingum county.

Brown assisted in repairing the damage to the other machine and was ready to move on but the driver of the other machine delayed starting and Brown tried to pass around the car. His machine plunged down a steep embankment, turning over three times before it finally came to a stop.

Mr. Brown returned to Newark this morning little the worse for his experience. He states that Helphrey suddenly threw his arms around his (Brown's) neck, causing him to lose control of the machine long enough for it to plunge down the bank.

MURRAY CONNOLLY WAS OVERCOME BY GAS FUMES TODAY

Mr. Murray Connolly, agent for the Grant automobile was overcome by gas while at work in his garage at Elmwood Court Friday morning. Mr. Connolly was working on a car when he suddenly became unconscious. The efforts of the workmen to revive him failed and Dr. H. P. Martin was called. Mr. Connolly was removed to his home in Elmwood avenue, and after he had received medical attention, regained consciousness and this afternoon is resting comfortably.

AT WOODSIDE CHURCH.

A delegation from the Railroad Young Men's Christian Association will attend the services Sunday at the Woodside Presbyterian church, which will be held all day. Secretary Hoodlett expects to send at least eight or ten members. On Monday evening Dick Bronson, formerly a pugilist, now caretaker of Dr. Anderson, the evangelist, will speak. Dr. Anderson also will speak before the members of the church at seven o'clock. This evening pictures illustrating the life of Christ will be shown, following the sermon on "Decision."

How Soldiers Keep Strong

Preparedness against sickness is the big, important thing to fighting soldiers. A sick soldier cannot work with vigor any more than you can work with energy when you are weak, tired, almost sick.

One efficient warring government is giving each soldier a vial of cod liver oil every day because far-reaching experiments show how wonderfully it increases the calories of human energy and gives them strength to prevent winter sickness. Is this not convincing proof that you need it at this season to enliven your blood to prevent sickness?

Cod liver oil is scarce and high-priced this season and many inferior grades may be offered. But remember that

SCOTT'S is the one EMULSION

which guarantees pure cod liver oil—free from alcohol and drugs.

If you are subject to colds, throat or lung troubles; if you are easily tired, run-down or have thin blood, you should take Scott's Emulsion at once. If your children are backward in growth, frail or anæmic, nothing will do them so much good as Scott's Emulsion, and for girls and women in home or business it is nature's great strength-builder.

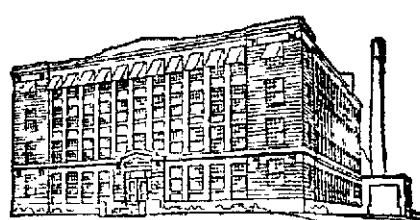

Scott's is not a "secret" medicine. It is a rich blood-food and a pure tonic; it contains nothing harmful and is pleasant to take. It is prescribed by physicians and liberally used in hospitals and private schools.

One bottle may prevent a sickness. At any drug store—Start it to-day.

Imitations are sometimes offered but this Trade-Mark has stood for supreme quality for the past forty years.

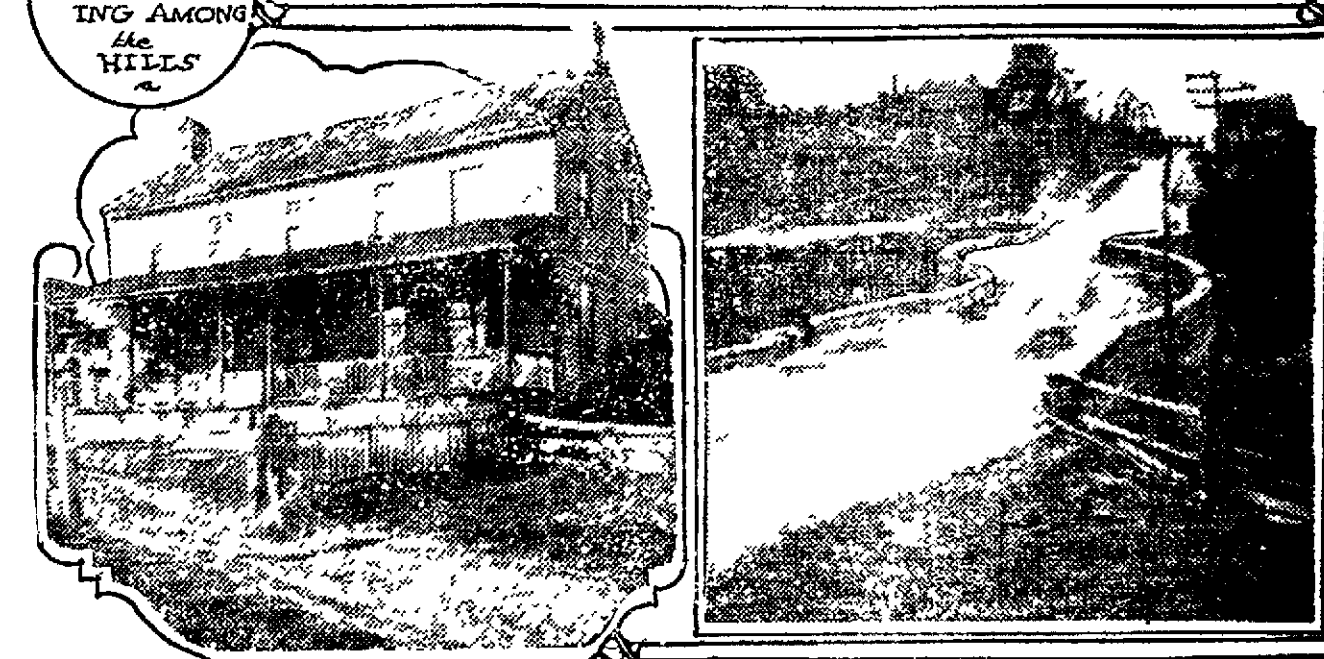

ALWAYS INSIST ON SCOTT'S.

RESTORED NATIONAL PIKE THROUGH LICKING COUNTY AND OHIO WILL BE BETTER THAN THE ORIGINAL HIGHWAY

WHERE STAGE COACHES TARRIED ~ The CROOKED BRIDGE ~

Licking county was one of the first to reawaken in Ohio, old echoes on the highway of her granddaddies. The national pike, or Cumberland road, as it was sometimes called, is being restored to a condition, surpassing its ancient splendor. For instead of rough stone pike, the ancient route is to be paved sixteen feet wide throughout the state of Ohio, a portion of the projected mileage being brick.

Thomas Jefferson, in 1806, signed the first act for a highway to connect Cumberland, Md., with the Ohio river. It was completed in Wheeling in 1818, to Columbus, through Licking county, in 1833 and thence by successive stages to Indianapolis, Springfield, Ill. and Jefferson City Mo.

This road which was the great highway of immigration for the central states has been repaired and concreted through Muskingum and Licking counties. A single day

would see scores of hurrying coaches and hundreds of wagons drawn by oxen. Most of the early statesmen and presidents passed over it at one time or another and the delapidated inns that abound along the route are replete with traditions of the great men who were then guests.

This road was gradually abandoned by the national government to the states, as the problem of maintenance became acute and for fifty years past, it has received almost no attention. It could scarcely be distinguished from unimproved mud roads in the vicinity. To prevent a recurrence of this indignity to an old landmark, the state highway department is directing that the improvement be of as nearly permanent character as possible. The brick pavement through Belmont county has practically been completed within the last year. Guernsey, Muskingum, Franklin and Montgomery counties also have their portions in

an advanced state of construction. One of the puzzles of the old highway is the famous crooked bridge in Belmont county, whose lines describe a compound curve. Whether the builder considered his design ornamental or whether he sought to fit the road to the stagerings of belated pedestrians has always been a subject of conjecture. Most of the stone bridges built in the earlier day are as sound as ever and would be considered good construction in any time.

While the old road will never resume its former relative importance, it is expected to become an important route of auto travel and to facilitate the marketing of farm products. The improvement program has already doubled the value of adjoining lands for a large part of the distance.

A diet of oranges will clear muddy complexions and reduce superabundant curves.

ESTABLISHED IN 1820

Entered as Second Class Matter March 10, 1882, at the postoffice at Newark, Ohio, under Act of March 4, 1879.

It is no exaggeration to say that neutrality has reached its highest point in Switzerland.

Who knows but what in the ceaseless round of time some future Baron Astor may be seeking a rich American bride?

Leap Year Romances will determine whether or not the current year is to go down in history as "Sweet '16."

The courts say that the automobile race in the streets at their peril, but so far as one can judge it is mostly at other people's peril.

The kids may sometimes condescend to speak correctly in the classroom but at home or on the playground good grammar is very bad form.

Political indorsements to the contrary notwithstanding, James Whitcomb Riley is and doubtless will continue to be Indiana's particularly favorite son.

Now that Congress is investigating everything, the American people are going to have the satisfaction of learning a lot of things that they knew before.

The stock market bears are severely criticised, but if it were not for them a great many American people would have a full line of soap bubbles in place of bank books.

Some of our exchanges are remarking that the presidential booms will be sunk by enemy submarines. It seems more likely though that they will sink of their own weight.

Edison says geography should be taught in school by moving pictures. A few vaudeville artists should be taken along so that the poor dear children don't overtax themselves.

Nearly 7000 bills were introduced in the first twelve days of the present session of congress, and to some of us it seems as if we had had nearly that number since January 1.

The San Francisco Panama-Pacific exposition celebrated the opening of the Panama canal. The San Diego Panama-California exposition has been continued for another year, probably to celebrate the canal's re-opening.

Approval of selections for members of the boards of complaints has been withheld in many counties where the selection of these boards is in the hands of Democrats. If approval is withheld for ten days, under the Parrett-Whitmore law, the state tax commission may itself make the appointments. By this means the authority of the state tax commission is increased and the governor or himself wields a greater influence on the appointments. As the days go by the people who are already compelled to pay higher taxes will realize that in the matter of changing the tax law for the "knockers" of 1914, Willis kept the words of promise to their ears and broke them to their hopes.

Daily History Class—Jan. 14.

1730—William Whipple, soldier, jurist and signer of the Declaration of Independence, born; died 1785.
1808—James Ryder Randall, author of the famous war song "My Maryland" and other poems, died; born 1838.
1915—Allies retreated south of the Aisne at Soissons, France, losing 5,000 prisoners and many guns.

ASTRONOMICAL EVENTS.

Evening stars: Jupiter, Saturn, Mars, Venus. Great nebula of constellation Andromeda in meridian due south, high up, about 9 p. m., noted for the rapidity of its approach to earth.

Jackson Day Speech.

"The Cox administration expended \$3,291,333 for new buildings and lands, for our universities, normal schools, hospitals and correctional institutions. The Willis administration has not paid out one dollar for permanent improvements in the way of lands or buildings, and yet its cost to the people for the year 1915 is \$126,893 more than in 1914."

"I ask any man in Ohio to raise his voice now and point to one single constructive act of the Willis administration."

"Our administration was cursed but never laughed at. It was a tragedy to certain interests in the state but a joke to none."

"According to Candidate Willis there was no need of having offices outside the state house as Ohio was bankrupt. But as Governor Willis he found not only the necessity for outside offices but a rich treasury to take a state building with."

In Computing Interest.

Although there are numerous tables for computing interest at varying rates on both the actual and thirty-day basis, these tables are not always available.

The following rule reduces fractions to a minimum, and makes the computation quick and accurate. It is based on the general rate—6 per cent—but is easily applied in all cases, by a simple additional step.

Rule: Reduce the years and months to months; annex one-third the number of days; multiply by one-half the principal.

To ascertain 6 per cent interest on \$500.00 for 2 years, 7 months and 11 days.

2 years, 7 months, make 31 months.

Annex one-third the days (one-third of 21)—317.

Fairfield county Democrats enjoyed their annual Jackson Day banquet January 11. It was a great success and augurs well for the old time Democratic majority in Fairfield this year. Addresses were made by former Governor Cox, by Judge Roland W. Baggott, by S. A. Hoskins, by J. H. Newmann and others. Edward Collins, as the representative of Cuyahoga Democracy brought a message from Cleveland certain in its tone of Democracy and demands for the future, and of loyalty to Democratic principles and administrations. A strong speech of the evening was by J. R. Alexander, of Zanesville.

Prohibition In Large Cities.

(New York Evening Post.)
The point of special interest in reference to the seven States where prohibition went into effect with the dawning of the new year is the way it will be found to work in Denver, Portland, Ore., and Seattle. These are by far the largest cities to come under the anti-liquor law. Hitherto, a population of 100,000 has marked that limit, but Denver is estimated to have about 250,000 inhabitants, Portland, 200,000, and Seattle, 335,000. Prohibition is not the only reform whose advocates are eager for it to have a trial in such places. Those who look upon commission government as the way out of our municipal ills are urging it upon large cities as well as towns. But the difference between this innovation and prohibition in this respect is of course, that the one is adopted by the city and the other is forced upon it. Prohibition is not on trial in Denver and Portland in the same sense in which commission government is on trial in those cities. From the success or failure of the latter reform, it may be possible to draw conclusions of more or less general application. A similar lesson may possibly be drawn, but its failure will prove nothing against the desirability of prohibition in large cities—where the people want it.

Congress and Defense.

(New York World.)
Mr. Choate is in error when he says that the people generally are awakening to the importance of national defense. They are not. That is where the trouble lies. The apathy of Congress is a reflection of popular apathy.

In the East and on the Pacific coast sentiment in favor of national defense is strong and aggressive. Throughout the West and South public opinion is indifferent or hostile, and the West and South control Congress.

Representative Gardner expresses the opinion that idealism, not the pork barrel, is responsible for Congressional opposition to the defense measures. That is true so far as it goes. We doubt if the pork barrel is a factor in the problem, but a great deal of bad feeling has unquestionably been aroused in Congress by stupid Eastern attempts to make it appear that every opponent of preparedness was trying to loot the national treasury for the benefit of his district.

The opposition that Mr. Bryan represents is the product of a blind idealism which insists that the United States should be defenseless in order to serve as a moral lesson to the other nations. A still more serious opposition is bred of our incorrigible American optimism. As

a people we never really believe that it is going to rain, and we know that umbrellas are expensive and cumbersome.

In the long run, Congress cannot be wiser than the people, but there are times when it ought to be, and this is one of them. No new policy is involved in the army and navy program of the Administration. It is a question of doing what we have always been doing, only doing a little more of it.

It must be admitted that the preparedness propaganda has been of a kind to invite suspicion, but we doubt if there is as much sordidness behind it as many think. A great deal of it is only the exploitation of personal vanity and political ambition, which seized upon an issue that promised to be popular. Congress ought not to be influenced one way or the other by self-advertising societies. It ought to look the situation squarely in the face and be guided only by the general welfare.

Granting that the added defense may never be needed, and that an agreement for disarmament may be reached as a result of the peace negotiations that will follow the war, the Administration's preparedness measures will not interfere with our disarming too. At best we shall have expended a few millions by way of insurance, and at worst we shall be the more ready to protect our own soil and our own institutions.

A Battle With Death.

(Baltimore Sun.)
The Kaiser is not what might be called a popular favorite in this country, though he is as well loved by a minority as he is reproached by a majority, but there is no one who will not pity him if he is, indeed, suffering from the relentless disease which literally has him by the throat. If the cable dispatches be true, Cancer is a fearful inheritance in the Hohenloern family, and according to all accounts it has reached an advanced stage in the German Emperor's case. Few forms of death are so terrible as this, and German medical science, like medical science everywhere else, is still baffled by this malignant physical mystery.

A great man is the German Emperor. Few others even in perfect health could have stood up under the tremendous strain and responsibility of the last year and a half. His ceaseless activity and energy are all the more wonderful when we discover that he has not only been fighting half the world, but has been at constant grips with death in one of its most dreadful forms during that entire period. If he has survived, fearfully has he atoned for it.

Thrilling War Stuff.
Victor Mardus, a war correspondent, is writing a thrilling story from London. In his latest letter he reports that he had an interview with Lord Northcliffe, and that Northcliffe has a whole lot of Roosevelt in him. Also that he dined with the Lord and his lady.—Kansas City Journal.

Antiquity of the Safety Pin.
That the little war is in constant communication with other nations is shown by the fact that Egyptian scarabs and plectrums, Phoenician pottery, Greek and Etruscan figures are found in the tombs of different periods. Jewelry, daggers and jewelry are fairly common, and Woolley proudly shows a safe pin, 2,000 years old, that would still work. Some stone age pottery, with the very ancient emblem of thunder, or of the weather, was found in its original kiln.—Christian Herald.

Contract Too Big.
The statement that the manufacturers of war munitions bribed a lot of newspaper men to accompany the Ford expedition in order to ridicule it and bring it to naught must be taken with a grain of salt. Individual newspaper men might be bribed, but there is not enough money floating around to bribe an entire delegation of them.—Memphis News Scimitar.

Rippling Rhymes

Convalescent.
When one's recovered from the grip, to walk around again, he likes to take a little trip downtown among his fellow men. He wants to tell his cronies there about the tortures he has known, of how the anguish grayed his hair, and harrowed them, and twisted bone. He meets a friend and says, "Oddsfish, be patient while ten minutes skip and harken to me for I wish to tell about my case of grip. That learned churcheon, Dr. Daw, who saved me from a box of pine, hath told me that he never saw a case one-half so bad as mine. My lungs refused their proper graft, my windpipe, like defective flue, was all clogged up, there was no draft, it whistled every breath I drew." "Come off, come off, and soak your head," exclaims the friend, so brash and flip; "I just have risen from my bed, where I had forty kinds of grip. And any of the forty brands was worse than your denatured case, so push yourself with both your hands, and spring your yarn some other place." That's all the sympathy one gets, when he's allowed to run at large, by all the doctors, nurses, vets, who've had him six weeks in charge. WALT MASON.

Cold Mixtures.
One of the coldest mixtures known is made by adding three pounds of murate of lime to one pound of snow. Three pounds of snow added to one pound of salt make the mixture fall thirty-two degrees below freezing point.

WHEN YOU GREET A FRIEND.

Tell Him He's Looking Fine and See How It Cheers Him.

"By George, old man, you are looking fine!"

Did you ever notice how you perk up, no matter how poorly you were feeling before, when some friend greets you in that way?

According to the secretary of the Colorado board of health, the human system just naturally beams to tone up under the stimulus of such greetings.

He declares it is an aid to health and a help in preventing disease, and to that end he advocates a "tell your friends how well they look" movement. "It is not only bad taste to talk of your pains and ailments," says the doctor, "but a reflection on your intelligence and knowledge of sanitation and good health. We are not far from the time when the cause of illness will have to be accounted for personally."

"In other words, nature is no longer going to be blamed for sickness when it is simply the result of ignorance, indifference or wrong ways of living."

Do you not think it worth giving the doctor's idea a try?

We do! So here goes:

"By George, you are looking fine!"—Santa Fe New Mexican.

LITERARY FORGERIES.

Stuff With Which Vrain-Lucas Duped An Aged Scientist.

The most remarkable literary forgery on record was perpetrated in 1870 on Michael Chasles, a French scientist of European reputation. Chasles, who was in his dotage, purchased within a few years from one Vrain-Lucas no fewer than 27,000 autographs. A. M. Broadley tells the story in his "Chats on Autographs."

"Beginning with a supposed correspondence between the youthful Newton and Pascal, Vrain-Lucas proceeded to fabricate letters of Rabelais, Montesquieu and La Bruyere. Before he had finished M. Chasles became the possessor of letters in French, and written on paper made in France, of Julius Caesar, Cleopatra, Mary Magdalene and even of Lazarus after his resurrection."

Vrain-Lucas was sentenced to two years' imprisonment, and among other forged manuscripts from his pen there were produced in court letters from Alexander the Great, Herod, Pompey, Judas Iscariot, Sappho, Pontius Pilate and Joan of Arc.

Battlecry of the Cat.

The piercing wavery of the cat in the night startles and exasperates us beyond all bearing—not by its loudness, but by a certain vicious, weird, half terrifying, half infuriating note in it that makes us spring to arms with the bootjack or other substitute for the boomerang, as the warwhoop of our tribal enemies did a century or centuries ago, says Dr. Woods Hutchinson.

One of Mark Twain's wise old frontiersmen had caught this note when he explained to the tenderfoot that animal speech had rules of composition and grammar, just like human speech, and that "the reason a cat riles ye so aint on account of the noise she makes, but on account of the sickenin' and grammar she uses." And he was right, for the grammar of scarp lifting and the whole alphabet of battle, murder and sudden death tingles and screams in the rasping cry.

Society

A very enjoyable birthday celebration took place at the St. John's Evangelical church in South Fifth street last evening. The natal anniversary of the pastor of the church, Rev. G. Thomas Haller and four of the members, Miss Elizabeth Link, William Link and Ott A. and Henry Vogelmeier, occurred within the past week and the five combined and entertained at a very fine luncheon in the church parlors. The edifice was crowded and all present had a most enjoyable time. Brief addresses were made by Rev. Mr. Haller and a visiting clergyman from Zanesville and the hosts were congratulated by all present. The Newark Maennerchor also rendered several beautiful selections.

Mrs. Chas. Daly entertained the Colonial Embroidery club, on Wednesday afternoon at her home in North Fourth street. The afternoon was pleasantly spent in needlework and music after which a delicious luncheon was served. Mrs. Elizabeth Daly and Mrs. Clarence Hill were the guests. The next meeting will be held at the home of Mrs. Varner in Dewey avenue.

Mrs. Harry Geidenberger honored Miss Florence McCarthy when she entertained with a miscellaneous shower at her home in Mound street on Thursday evening. The colors selected for the decorations were red and white and the bride to be's chair was festooned with the colors and completed with a canopy of red and white. The table was centered with a basket of cut flowers. Miss McCarthy's marriage to Mr. Frank Ewald will be solemnized on Wednesday morning, January 19, at 9 o'clock at St. Francis de Sales church. Mrs. Geidenberger's guests numbered about twenty-five.

The Isola Sewing club met at the home of Mrs. Harry Rainey in Buena Vista street on Thursday afternoon. The hours were devoted to sewing, music, and contests and in the latter the souvenirs were awarded to Mrs. George Howarth, Mrs. Otto Rainey and Mrs. Clarence Johnson. A delicious two-course luncheon was served.

The next meeting will be held at the home of Mrs. Arthur Cornell in Buena Vista in two weeks.

Mrs. Harry Bournier delightfully entertained the members of the Kensington club on Thursday evening at her home in North Fourth street. The time was spent with needlework and a two course luncheon was served.

The guests of the club were Mrs. W. D. Callahan and Miss Grace McMahon.

Mrs. Frank Douce entertained a few friends with a slumber party at her home in Charles street on Thursday evening, honoring Miss Helen Ingman of West Main street, who leaves Saturday for Cincinnati, where she will enter the Conservatory of Music.

Mr. and Mrs. C. M. Bell will celebrate the 50th anniversary of their wedding on January 21 at Frazeyburg.

Mrs. Perry Armentrout entertained at her home in North Williams street on Wednesday in honor of Mrs. Jesse Cabean of Zanesville. The table decorations were red and white carnations. The guests found their places by dainty place cards. Those present were: Mrs. E. L. Blackwell, Mrs. H. G. Hayes, Mrs. E. L. Blackwell, Mrs. M. A. Luther, Mrs. J. F. Leedy, and Mrs. E. O. Keller.

Mrs. Joseph Collins of Cleveland, O., entertained the B. W. Embroidery club Thursday at the home of her mother, Mrs. E. Howard in South Pine street. The next meeting will be held January 27 at the home of Mrs. Joseph Church in Eleventh street. The guests were Mrs. S. Beabout and Mrs. William Howard.

Everyone of the ninety girls at the banquet, given by industrial clubs Thursday night at Plymouth Congregational church, greatly enjoyed the whole evening. Everybody had a chance to chat together for a few minutes before the invitation to descend to the dining room came. The members of the board of directors and industrial committee and honor guests, Miss MacCorkle and Mr. Hopkins, were escorted to the dining room by Mae Bebout, Federation president, and Mrs. E. V. Bowers, chairman of industrial committee. Then the club members, with their guests, entered the dining room by two, singing "We'll cheer for Our Clubs," finding their own tables by colors, each table being decorated with individual colors. The Jolly Workers had the largest percentage of members out, thirty-six, including guests. Soon the rivalry in singing club songs and giving yells began and the honor goes to the Four L club for "expressed energy."

The girls responded to the toasts with as much energy and cleverness as they do everything else. Mrs. Fred Evans very graciously toasted Miss MacCorkle, "Mother of the Federation," in Mrs. Jones' absence. Miss MacCorkle, in response said, "I have never been prouder in my life than I am tonight. But I am forced to a confession. I am not your mother, much as I should love to be. The whole Association movement."

Quick, Painless Way to Remove Hairy Growths

(Helps to Beauty.) Here is a simple, unfailing way to rid the skin of objectionable hairs. With some powdered delatone and water make enough paste to cover the hairy surface, apply and in about 2 minutes rub off, wash the skin and every trace of hair has vanished. This is quite harmless, but to avoid disappointment be sure to get the delatone in an original package.

including the Industrial Federations, is the offspring of the great 'Woman Movement'. At first I was not willing to claim her as my teacher, now I am proud to be her pupil. It was never intended that the 'Man That Binds' should be supreme. The time is rapidly approaching when the two movements will go hand in hand. And the Association is having a very important part in preparing the girls and women for that time.

Mr. Hopkins, with many words of appreciation, thanked the Industrial clubs for their part in the Community Christmas celebration and the other pieces of social service work done by individual clubs. Singing one verse of "Blest Be the Tie That Binds" closed the regular program. The clamors for some stories brought Miss MacCorkle back to her place and she entertained the girls with her best stories, some old, some new, all charming.

Miss Bergquest was not well enough to return for the banquet but will be back the first of next week. She was missed in the fun and frolic Thursday night.

RETURNED PROPERTY WHICH IS CLAIMED STOLEN BY WOMAN.

The varied collection of notions which has been in the possession of Sheriff Chas. H. Swank, and which was secured from a second hand store shortly after the arrest of Charles Athey and Wilbur Sorrell on the charge of shooting Patrolman Walter Boscowan, will be returned to the claimants of what is left of the collection, Mrs. John Athey and Mrs. Wilbur Sorrell. When the stuff was brought into court it filled a big trunk and a good sized box. Much of the stuff was proved to be stolen property and has been identified and restored to the owners. Mrs. Athey and Mrs. Sorrell claimed to have stored the trunk and box without being aware of its contents.

Obituary

Mrs. Rebecca Richeson.
Funeral services for Mrs. Rebecca Richeson, 81, sister of Mrs. Jennie Coyne of this city, were held this afternoon at the home of Mrs. Richeson's daughter, Mrs. L. K. Beach. Mrs. Richeson died Wednesday night after a two weeks' illness of pneumonia. While she has been active in church work for many years, she was prevented for the past two years from doing the work in which she took great pleasure.

Peter Graff.
Peter Graff, 84 years old, a retired teamster, died yesterday afternoon at 2:45 o'clock at his home, 109 Webb street after an illness lasting but three days. His death was due to pneumonia.

Mr. Graff was born in Germany Oct. 21, 1831 and came to this city early in life and worked here as a teamster. He retired about 40 years ago.

He is survived by two daughters, Barbara Graff of the home and Mrs. Heintze of Wichita, Kan., one son, P. H. Graff, two sisters, Mrs. Peter Sachs and Mrs. Barbara Link and one brother George Graff, all of this city.

Funeral services will be held Saturday afternoon at 1:30 o'clock at the home, Rev. Mr. Schleiffer officiating. Burial at Cedar Hill cemetery.

Mrs. Orlando Hickey.
Mrs. Gertrude Hickey, wife of Orlando Hickey, died on Friday morning at 10:30 o'clock at her home near St. Louisville, aged 60 years. She is survived by three daughters, Mrs. Lulu Baird and Miss Grada Hickey of Newark and Mrs. Dottie Kearns of Martinsburg, and one son Harry Hickey of the home.

The funeral services will be held on Monday morning at 11 o'clock, sun time at the Eden church, and Rev. J. G. Walker will officiate. Burial will be made in the Eden cemetery.

THE SICK

Mrs. Emma Howarth, who recently underwent an operation at the City Hospital, was removed to her home in Mound street yesterday in the Bradley ambulance.

Mrs. Charles L. Moore is ill at her home, 94 Flory avenue.

Will C. Kuster is confined to his home, 237 Hudson avenue, with an attack of rheumatism in one of his legs.

Miss Maude Botts, after an attack of grip, was able to resume her duties in Norpell & Norpell's law offices this morning.

Mr. George Pickup is ill at his home in Hudson avenue suffering with the grip.

Baby's woolen garments, washed by the following method, will retain the softness of the new article. Lukewarm, soapy water should be used. Squeeze them, but never rub them or rub soap on them. Rinse in lukewarm soapy water and be sure that a good, pure soap is used. The shirts, bands and stockings should be dried on stretchers which come for this purpose. They are inexpensive and keep the articles in shape. It is better to dry them in the sun. The blanket, skirt, too, should be washed in like manner.

Chicago Grain	
(Associated Press Telegram)	
Chicago, Jan. 14.—Wheat 1.20 1/2; that a fresh advance in freight rates to Europe was likely, had a bearish influence today on wheat. In this connection, a report from London that buyers were holding off on the chance that the British government might increase to control the rapidly growing tendency to hoist vessel charges. The passing of the cold wave operated also as an advantage to the grain. Opening prices, which ranged from 1 1/2 to 1 3/4, were followed by a slight upturn, but then a material setback all around.	
Later the market suffered a further drop owing to reports that a bill to remove the corn duty on wheat had been introduced at Ottawa. Besides, pessimistic views were circulated as to chances that the railroad embargoes east might continue for an indefinite time. The close was nervous 1/4 to 1/2 to 1/4 net lower, with May at 1.27 1/2 and July at 1.30 1/2.	
Better weather conditions eased the corn market. Longs showed a disposition to realize profits. After opening 1/2 off to 1/2 up prices underwent a general moderate decline.	
Additional decline resulted from advice that corn was being brought to come here from Kansas. The close was weak at 1/4 to 1/2 net decline.	
Unweakened with corn and wheat. Pit traders were free sellers.	
Scattered selling by longs was sufficient to weigh down provisions. The selling appeared to be based upon the lowering of prices on grain and hogs, on a larger scale. It was pointed out that hog arrivals at western centers were much more numerous than at the corresponding time last year.

Wall Street	
(Associated Press Telegram)	
New York, Jan. 14.—Recoveries from yesterday's late decline were scored at the opening of today's market. American Smelting and Mexican Petroleum	

soon rising 1/4 and 3/4 points, respectively from final prices of that session. There were gains also of 2 to 5 points in shares of the special class, particularly American Coal Products, Crucible Steel and American Tobacco. Bethlehem Steel rose 10 to 40, but U. S. Steel made only a small fractional gain. Other recognized leaders showed minor changes.

During the dull first hour the market was diverted by further activity in manipulative specialties but heaviness again ensued when swelling of Mexican stocks, notably Snelgrove Petroleum, was resumed. War shares like Crucible Steel and Baldwin Locomotive also denoted pressure or liquidation and United States Steel fell back 1/4 point from its rise to 85 1/2. The only constructive feature of the morning was the further activity in Mercantile Marine issues, preferred shares rising 2 1/2 to 80 1/2 and the 4 1/2's 1 1/2 to 90 1/2, both new records. Prices hardened again at midday. Bonds were irregular.

Wool Market Bulletin
(Associated Press Telegram)
Boston, Jan. 14.—The Commercial Bulletin will say tomorrow: "The demand for wool has continued steadily again this week, and a fairly good volume of business has been done. Sales have been well diversified but the greater part of the business appears to have been for fine wools to arrive. Prices are very firm and in some wools more especially medium grades there have been fractional advances. The embargo in England is right on all classes this week. The situation at the mills apparently is very healthy and demand continues very good, notwithstanding recent advances in prices."

After occupying for 24 years the same business stand in South Park Place, the Criticos Candy company will move into a new location on April 1, when their lease expires.

The owner of the building has leased the store room to the new Boston store, a furnishing house, which conducts a number of stores, throughout the country, and Mr. N. Criticos is leaving the room on April 1. The new location of the candy company will be announced in a few days.

To Set Aside Verdict.
Ralph H. Baker vs. Maude M. Baker is the title of a petition filed in common pleas court today, and which asks that a verdict in probate court secured by the defendant be vacated. The petition recites that on Oct. 11, 1915, the probate court purported to render a decree against plaintiff in favor of the defendant, granting a divorce and custody of gross neglect, granting custody of the children of the parties to the defendant and granting her \$20 a month alimony. The plaintiff in his petition states that the probate court has no jurisdiction of the person of the plaintiff and that the verdict is null and void and ought to be vacated. Plaintiff asks for a temporary injunction restraining and enjoining the defendant from enforcing or executing the judgment and asks that same be set aside.

MADISON GRANGE OFFICERS INSTALLED THURSDAY EVENING

Officers of Madison Grange, No. 1981 were installed at a public meeting held in Bowling Green church near the Weiland greenhouses last night, about 300 people being present. O. B. Young installed the new officers of the grange as follows:

W. M.—John Neibarger.
W. O.—V. C. Rian.
W. L.—Harry Dotson.
W. S.—J. Q. Hickman.
L. A. S.—Reed Dotson.
L. A. S.—Mrs. Chas. Moore.
W. Chap.—A. J. Neibarger.
Treas.—Orville Kiger.
W. G.—H. C. Neibarger.
Ceres.—Mrs. Ross Felty.
Flora.—Clarice Hickman.
Pomona.—Nettie Butler.
Business Agent—J. K. Poundstone.

At the conclusion of the exercises of installation, the presiding officer called upon Mr. Warren S. Weiland for a few remarks. Mr. Weiland was a successful farmer as well as with his son, Carl A. Weiland, operates large vegetable greenhouses east of the city, gave the farmers present some splendid advice and incidentally advised them to remain on the farm. He told the young ladies present to keep their eyes on the farmer boys because as a matter of fact they make the very best of husbands. The meeting was one of the best ever held by Madison Grange.

POLICE SCORED MURDER MYSTERY NOT UNRAVELED

(Associated Press Telegram)
Cleveland, Jan. 14.—The murder of Dolores Evans, 19, in a downtown hotel here Tuesday, remained unsolved today, police having failed to make an arrest, although they say they know the name of the man who killed the girl in brutal fashion and then left her nude and mutilated body locked in the room, where it was not found until twelve hours later. The affair brought a seathing denunciation of the police department from Mayor Harry L. Davis today, who promised the biggest stakeup in the history of the local police department if definite progress in clearing up the crime was not made within 48 hours.

Coroner Byrne began an inquest into the murder today but evidence shed no light on the present whereabouts of the murder suspect. No relatives of the girl have yet been located.

Propose a Bonus For Workmen On the Panama Canal

(Associated Press Telegram)
Washington, Jan. 14.—A bonus of at least six months pay is proposed for all civilian employees of the government working on Panama canal construction for three years prior to March 31, 1914, in bills now pending before congress, introduced into the house by representative Hill and in the senate by Senator Martin of Virginia. More than 5,000 men, it is estimated, would be benefited. The bills all for an appropriation not to exceed \$5,000,000.

Bowser Defeats Albright in Most Sensational Wrestling Bout Ever Staged in Newark

In the most sensational wrestling bout ever staged in Newark, Paul Bowser, the local champion, Thursday night at the Music Hall defeated Con Albright, of St. Paul, in two straight falls. Both falls were secured with the aid of the deadly toe hold. The first fall went to Bowser in 9 1-2 minutes the second in 1 hour and 16 minutes.

Albright, who is the only man credited with a victory over the middleweight champion, Joe Turner, tried all the way, but the local man's ability to stand punishment and in turn dish it out, with the aid of the toe hold, was too much for the champion. Albright's weakest spot was his right leg, which was broken two years ago. Upon this particular point Bowser directed his attack. After 9 1-2 minutes terrific wrestling, Paul succeeded in getting the hold, which made Gutch famous, on Con's right foot. Albright after trying for a minute to break the hold, signaled Referee Herbert Webber to give Bowser the fall. According to custom, Albright designated a ten minutes' rest after the first fall.

The seventy-six minutes duration, before the second fall was won by Bowser, was filled with the cleverest work on the part of both men that has ever been seen in Newark. Albright who is a past master in the art of holds, employed every method known to the grappling game. Bowser on the defensive surprised and delighted his followers by the manner in which he met, broke and eluded all the holds.

Several times the fans gave up hope of Bowser getting away from the toe hold, but each time by a super-human effort he released himself and in turn had Albright in a bad way. Bowser tried repeatedly to get the deadly toe hold, realizing that once he secured it, the final fall and the match was his. Albright suffering from the effects of the first fall was too wary and staved off the hold on his toe by fast work.

After Bowser had apparently lost the second fall several times, and the fans had settled down to wait until one of the men weakened, Bowser emerging from a wicked hold, secured Con's right foot, and the match was over.

Albright stated after the bout that he thought Bowser was good, but would have asked to have the toe hold barred. He said that he had his right leg broken two years ago and that since that time he could not offer much resistance with this leg. But if the hold was put on the left leg, he could break it. He was loud in his praise of Bowser and the fans showed their true sportsmanship to Albright when he lost the second fall. The better portion of the crowd carried Bowser to his dressing room, while the rest remained at the ring side to shake the hand of the vanquished grappler.

Albright is one of the cleanest and without doubt the best man that has met Bowser at the Music Hall. That Joe Turner is not safe with his championship, is the opinion of the Newark followers of Bowser. Paul came to this city several months ago and revised the mat game. Since then he has made a host of friends, by the high class manner in which he goes about his work. When Paul wrestles, the fans can lay a 100 to 1 shot, that they will get the worth of their money.

The curtain-raiser was a finish match between Willard and Kenneth Teuscher, Newark bantamweights. Willard won both falls in 6 and 9 minutes, with scissor locks on the arms. This bout pleased the crowd as both youngsters displayed plenty of science and were trying all the time.

The semi-windup bout between Fred Bowers of this city and George Cardellos, the "Terrible Turk," who hails from Columbus, was won by Bowers after 7 minutes work. Bowers was after the "Turk" from the tap of the gong. Cardellos fell from the mat and injured his back. He continued the bout, but a few minutes later repeated his acrobatic

stunt and had to discontinue. Bowser was awarded the decision.

Previous to the main go, Bowser and "Eppie" Frenier, gave an exhibition of the various holds employed in the wrestling game. They will exhibit several more holds at the Bowser-Pollis show, next Thursday evening at the Music Hall.

FAMOUS PLACE NAMES.

Why Should They Not Be Called Alike All Over the World?

It is perhaps too much to expect that a universal meridian or universal time will ever be established, still less that we shall have universal money or a universal secondary language. All these things might be brought about if we could only get rid of our prejudices.

It is not, however, too much to hope that the present confusion of place names should be got rid of. Why the English and the French should persistently describe as Cologne and Mayence, cities which their own inhabitants never call anything but Köln and Mainz, it is difficult to understand, and there is certainly no excuse for our pronouncing the name of the Bavarian capital as "Munich," as if in scorn of the dwellers therein, who call it, as nearly as English letters will reproduce the sound, "Minchen." Why should an Italian gratuitously misname London "Londra"? We really ought to know how our own capital should be called.

As to Polish place names, also Przemysl and the like, only an international commission could decide.—London Globe.

OLD RIVALS MEET.

Marysville, Jan. 14.—Marysville High school basketball team is putting in some hard ticks this week, preparatory to the annual Marysville-Plain City game, which will be played on Armory floor tonight. For years there has been considerable rivalry between these two towns in athletics. Plain City will send a large crowd to root for its team.

Tank Explodes; Man Killed.

Galion, Jan. 14.—An acetylene tank exploded in a country church west of here, while Roy Pfeiderer, a tinner, aged 31, and married, was engaged in repairing a leak. The lighted torch in his hand set fire to the escaping gas and he was knocked backwards, falling a distance of seven feet. His neck was broken and death was instantaneous.

Train Hits Auto; Two Hurt.

Cincinnati, Jan. 14.—Charles Wayman, aged 22, of Norwood, was probably fatally injured and Edward Corchana, aged 25, of this city was seriously hurt yesterday when an automobile truck on which they were riding was struck by a New York Central passenger train at a crossing in Carthage.

Miner Killed.

Cambridge, O., Jan. 14.—Martin Trockmiller, 17, a miner was instantly killed by a fall of coal at the Laur mine. The young man was working beside his father at the time but the latter escaped injury.

THE GOOD WIFE.

A Treasure, Holding In Her Hands the Destiny of Posterity.

When a woman enters the marriage relation her sphere of influence is at once extended, and her horizon is no longer bounded by the people and circumstances of the moment.

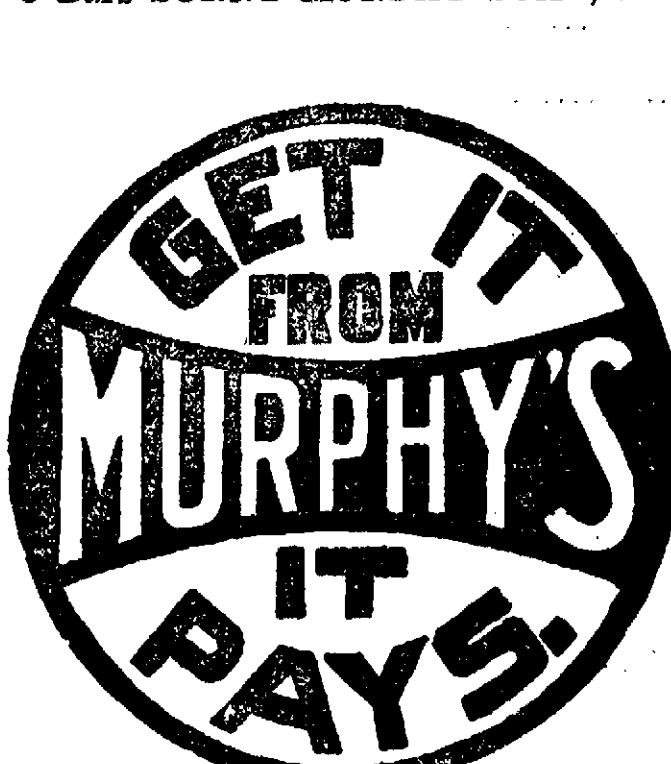

She is building for posterity. In the joy and thoughtfulness which characterize her mind in the new relation there is a prophecy of unborn generations. Her life is to color other lives; her aspirations are to fix to a great extent the position and future of husband and family.

If she is cultured, pure and refined these qualities will characterize the home which she creates. The higher the degree of her culture, her purity, her refinement, the more will these qualities characterize the home of which she is the center.

The personality that a woman takes with her in her marriage is her real dowry. If her dowry can be reckoned in numerals only, no matter how many they be, wrecked indeed will be her husband, impoverished her children.

But if she possesses industry, gentleness, self abnegation, purity and intelligence, combined with capability, she is in herself a treasure of treasures.—New York Weekly.

Granville

(Special to the Advocate.)
Granville, Jan. 14.—The long delayed cold wave struck Granville last night and Jack Frost was busy at the window panes—which everywhere this morning showed exquisite talents of his magic brush. But there is plenty of gas and coal in every home and no one is the worse for the sudden change in temperature.

Rev. Clarence A. Barbour, D. D., president of Rochester Theological Seminary who has been the guest of President and Mrs. C. W. Chamberlain for three days of this week of prayer for colleges, has returned to Rochester, carrying with him the friendship and good will of hundreds in the college and community who have been spiritually benefitted by his ministrations.

Two magnificent sermons on Thursday by Mr. Barbour marked the close of his three days' labor in Granville and it is safe to say that no better preaching has ever been heard in this village. Dr. Barbour is a word painter, a player upon an instrument of many strings—the heartstrings of men. He sweeps his audience along on the resistless tide of eloquence, from mood to mood, and his hearers respond with smiles or tears as he wills. So tense was the feeling at times, that the ticking of the clock in the rear of the auditorium sounded almost like hammer strokes, and yet there was nothing lurid nor sensational; no cant, no rant. He reached the heart by way of the intellect, reason and judgment approved of the emotion he evoked. He was simple and natural and sympathetic and magnetic, and the results of his three days' ministry can never be measured.

Special music at the public services yesterday, was furnished in the morning by Miss Grace Brooks, contralto, with Miss Brown at the organ; in the evening by Mr. Gerald Athey, baritone, with Miss Ferrar as accompanist. Both were in splendid voice and sang with feeling and expression the selections so appropriate to the occasion.

Mrs. Charles B. White invites her young friends to the Story Hour on Saturday afternoon, January 15 at 1:30, in the Granville Public Library, the subject to be "New Year's Day in Song and Story."

Mrs. Theodore Johnson went to Mt. Vernon today to attend the funeral of Mrs. Fletcher Popham of that city.

The Eastern Star will meet this evening at 7:30.

The mass meeting of Granville town and township citizens this evening at 7:30.

A GIRL'S COMPLEXION

Very few girls get through their teens without eruptions or pimples showing on their faces.

These may be due to indigestion resulting from improper diet. If so they will quickly disappear when the proper food is adhered to. If they are accompanied by pallor and listlessness you must look to the condition of the blood.

Because these eruptions on the faces of school girls are so common they seldom receive the attention from parents that they require. When they indicate thin blood or anemia there is a ready remedy in Dr. Williams' Pink Pills. These tonic pills, free from harmful drugs, are pretty sure to help growing girls because they build up the blood at a time when the demand on it is greatest. As the blood is made rich and red, fickle appetites become normal, lassitude gives way to vigor, the cheeks and lips show the glow of health and the whole system is toned up. The nervous system is invigorated and with proper attention to diet many dangers are averted.

Your own druggist sells Dr. Williams' Pink Pills or they will be mailed, postpaid, on receipt of price, in cents per box, six boxes \$2.50, by Dr. Williams Medicine Co., Schenectady, N. Y. The pamphlet, "Building Up the Blood," is free on request.

CAN'T FIND DANDRUFF

Every bit of dandruff disappears after one or two applications of Danderine rubbed well into the scalp with the finger tips. Get a 25-cent bottle of Danderine at any drug store and save your hair. After a few applications you can't find a particle of dandruff or any falling hair, and the scalp will never itch.

ing in the opera house to discuss the project of a new high school building, should not be neglected by anyone, able to attend.

Mrs. Henry Welsh delightedly entertained the Daughters of Rebekah on Wednesday evening. A large number was present, refreshments were served in the dining room which was decorated for the occasion in pink and green, and a social time was enjoyed by all.

The month's report of Miss Grace Chamberlain who has charge of the Granville Public Library, shows 2,600 books on the accession list. Donors of volumes for the month were: Prof. W. H. Johnson six; Mrs. Inez Malone, five; Mrs. Charles Herrick of Chicago, two; Mrs. C. B. White one; Miss Florence Ables, one.

Miss Bertha Fulton and Miss Marion Weiant of Newark were Granville visitors yesterday.

Subscribers for the Artists' course of the Newark Music Club series should secure their tickets this week as reservations are to be made on Monday. Mrs. James R. Fitzgibbons, Mrs. Joe Sprague, Miss Bertha Fulton, in Newark or Mrs. Charles B. White of Granville will attend to the matter for you.

There will be services this evening at 7 o'clock in the Baptist auditorium to which all in the community are invited. Mr. Pontius, secretary of the Y. M. C. A. in Columbus who was to have led the meeting is suffering from grip and unable to be present, but as Dr. Barbour announced last evening—there will be a good speaker.

At a meeting of the own council this week, Rusler, Ashbrook, White and Deeds being present, with Mayor C. D. Coons and Clerk Morrow in their chairs.

The matter of opening West Maple street and Sheparson Court which will connect West Broadway with Maple street was taken up. The right of way was purchased of Mrs. Isaac Baker for \$50.00. This street is to take care of the heavy hauling when Broadway is paved with asphalt and also to be used during the construction of the paving. East College street will also be opened to East Broadway for the same reason as soon as the council can make satisfactory terms with the parties owning the land through which the street will go.

The committee on sidewalks and cross-walks was instructed by the Mayor to investigate the sidewalk conditions in the village and report to the council at their next meeting. Mayor Coons appointed J. C. Shipley as marshal to succeed Ed Evans, resigned. Mr. Shipley had considerable experience in the office and makes a good man for the position.

The Mayor reported that he had fined a man \$5 and costs for having left a horse hitched to a post in the street all night. The Mayor intends to break up this practice. He should be commended for this.

The sewer estimate of \$123.22 was allowed the contractors, Messrs. Chapman & Glover. A final settlement has not been made.

Council adjourned to meet at the call of the mayor.

KING OF URBAN TREES.

Qualities That Adapt the Elm to Architectural Surroundings.

The elm is essentially a self-sufficient tree. It does not thrive in groves. It has a standard type of its own, and it either attains this type or is lost to view. The elm which comes to maturity is usually the one which has lodged in a favored spot where there is no competition, such as a river meadow, where the spring freshets have dropped the seed on fertile soil and the roots can get down to water.

We all know the type, the noble trunk of massive girth tapering very gradually upward to the first spring of branches and then dissolving into those branches as a water jet might dissolve in many upward and out curving streams till the whole is lost in the spray of the foliage. Like many other trees that grow alone, it develops an exquisite symmetry. But with the elm this symmetry is not only one of general contour, but of individual limbs. Not only is the silhouette symmetrical, but the skeleton also, branch balancing branch.

That is what gives it its remarkable fitness to comport with architectural lines, with geometrically designed vistas. It has a formal structure and a consequent dignity which make it the logical shade for a village street, a chapel, a library, the scholarly procession in cap and gown. Add to that dignity its arched and airy lightness and its splendid size and you have the king of urban trees.—Walter Prichard Eaton in Century.

The Hippopotamus.

In spite of its clumsy build the hippopotamus can trot fast. That is why he is called "river horse." The hippo's feet are kept far apart by the wide body and make paths with a ridge down the middle, recognizable at once. Hippos swim very well, but go at their greatest speed when they can gallop along the bottom in shallow water. They can stay under water a long time, and when they come to the surface they send little jets of spray from their nostrils. The cow is devoted to the calf. The young one stands on her back as the mother swims.

Fever Closes Schools.

Dayton, Jan. 14.—The prevalence of scarlet fever in Englewood, this county, has necessitated the closing of schools.

Theatres

At the Mazda.
Mme. Petrova in "My Madonna," Metro's masterpiece screen production. Admirers of Mme. Olga Petrova have a treat in store for them when they see this marvelous emotional actress in this feature which was adapted for screen presentation from the poem of the same name by Robt. W. Service, affords Mme. Petrova unlimited opportunity to give free rein to her supreme dramatic talents. In this big feature she appears at her best, even surpassing her efforts on the speaking stage. An excellent cast supports Mme. Petrova including Guy Coombs, the old Kalem star who in this production makes his debut in Metro pictures. "My Madonna" will be seen at the Mazda theater Saturday and Sunday, Jan. 15-16.

Alhambra Theater Tonight and Tomorrow.

Daniel Frohman presents the famous emotional artist, Pauline Frederick, star of the "Eternal City," in her latest screen adaptation, "Lydia Gilmore," from the pen of Henry Arthur Jones.

Sunday, one day only, comes that popular Mary Pickford and Owen Moore, in the fascinating play, "Caprice."

Monday and Tuesday comes Geraldine Farrar, star of "Carmen," in "Temptation."

Wednesday and Thursday comes the greatest of all, George Beban, in "An Alien," adapted from "The Sign of the Rose," eight masterful parts.

FORM OF THE EARTH.

It Has Changed but Very Little in Many Millions of Years.

The earth's form is that which its rotation period demands. Undoubtedly if the period has changed the form has changed. Given a little time, solids under great pressure flow quite readily into new forms.

Now, any great slowing down of the earth's rotation period within geological times would be expected to show in the surface features. The strata should have wrinkled, so to speak, in the equatorial regions and stretched in the polar regions if the earth changed from a spheroid that was considerably flatter than it now is to its present form. Mountains, as evidence of the folding of the rock strata, should exist in profusion in the torrid zone and be scarce in or absent from the higher latitudes of the earth.

Such differential effects do not exist and it seems to follow that changes in the earth's rotation period and in its form could have been only slight while the stratification of our rocks was in progress. Geologists estimate from the deposition of denudation and sedimentation that the formation of the rock strata has consumed from 60,000,000 to 100,000,000 years.

If the earth had substantially its present form 80,000,000 years ago we are safe in saying that the period of time represented in the building up of the earth from a small nucleus to its present dimensions has been vastly longer, probably reckoned in the thousands of millions of years.—W. V. Campbell in Scientific Monthly.

Health Restored by Lydia E. Pinkham's Vegetable Compound.

Jamaica, N. Y.—"I suffered greatly with my head and backache, was weak, dizzy, nervous, with hot flashes and felt very miserable, as I was irregular for two years. One day when I was feeling unusually bad my sister-in-law came in and said, 'I wish you would try Lydia E. Pinkham's Compound.' So I began taking it and I am now in good health and am cured. I took the Compound three times a day after meals, and on retiring at night. I always keep a bottle in the house."—Mrs. L. N. BURNHAM, 25 Globe Ave., Jamaica, N. Y.

Women who recover their health naturally tell others what helped them. Some write and allow their names and photographs to be published with testimonials. Many more tell their friends.

Healthy Old Age Brings Happiness

Simple Remedy Promotes Health by Overcoming Tendency to Constipation.

Advancing years impair the action of the vital organs. Old age should be the period of greatest happiness, but good health is necessary. Constipation should not be tolerated—it is often the direct cause of ill health.

Headache, belching, biliousness, bloating, drowsiness after eating and other symptoms of constipation can be readily relieved by the use of a simple laxative compound sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. Mr. J. H. Bristol, 1412 Geddes Ave., Ann Arbor, Mich., who is 83 years old, says: "Dr. Caldwell's Syrup Pepsin is the best remedy I ever used for constipation and I always have a bottle of it in the house to use when I feel the need of it; it never disappoints."

Dr. Caldwell's Syrup Pepsin is a mild laxative preparation, positive in its effect, acting easily and naturally without griping or other pain or discomfort. For over a quarter of a century it has been the standard

MR. J. H. BRISTOL.

household remedy in thousands of homes. Druggists everywhere sell it for fifty cents a bottle. A trial bottle of Dr. Caldwell's Syrup Pepsin can be obtained, free of charge, by writing to Dr. W. B. Caldwell, 451 Washington St., Monticello, Illinois.

DEPORTATION

OF FOREIGNERS WHO TOOK LEADING PART IN YOUNGSTOWN RIOTS

May Be Asked by Governor Willis Whose Special Representative Is Investigating.

(Associated Press Telegram)
Columbus, O., Jan. 13.—Investigations on which might be based demands for deportation of foreigners who participated in rioting at East Youngstown were near completion today by special representative of Governor Willis. The identity of the governor's representative was not disclosed but it is known he is an inspector in the state fire marshal's office.

Governor Willis said today he had not considered the question of asking the federal bureau of immigration to deport foreigners who were leaders in the mob which burned \$500,000 worth of property and engaged in shooting at East Youngstown last Friday night. He said he would take up the question when his representative makes a full report however.

Charges of arson probably will be filed against several strikers at the East Youngstown steel mills as a result of reports made to the state fire marshal today by his inspectors, Charles Miller, R. N. Haun, H. M. Carpenter and A. M. Major, who have been making their investigations since last Saturday.

A LUCKY STONE.

Maybe the Part It Played Was Merely That of Coincidence.

In his book, "The Magic of Jewels and Charms," George F. Kunz relates this little story of a lucky stone and the adventures of its owners:

"Some years ago a meteorite was given to Edward Heron Allen, the famous writer on palmistry and the violin, and this gifted man always wore it about him. One morning he awakened to find that the entire roof above him had fallen in, except just that portion over his bed.

"He told the story to one of the best known ladies in Boston, one who is known for her public spirit, her love of art and her faultless manner of entertaining. This lady successfully urged Allen to give her the meteorite.

"A few days later, while out driving, a great truck with two runaway horses attached to it struck her carriage. Instantly she raised her hand to protect her face. The muf was almost cut in two, but the lady was not hurt. A few days later, while she was walking under some scaffolding, it fell, and the open part where the hoists went up proved to be just where she stood. Although surrounded by ruin, she remained unharmed."

Whether the stone was a factor in averting disaster to its owners in their moments of peril is, however, a matter apart from the facts in the case.

A Strict Dramatic Censor.

Vienna once possessed the strictest dramatic censor ever known in the person of Franz Hoegelin, who held that post in the Austrian capital at the beginning of the last century. Hoegelin published a manual for the guidance of censors. "A pair of lovers should never be allowed to appear on the stage alone. They must always be accompanied by a third person of mature years." Marriages out of one's class were also strictly forbidden by Hoegelin on the stage, and he quotes an instance of a play which he refused to pass because the author made the hero, Count Valdemar, marry a gardener's daughter. "Such misalliances have unfortunately been known to occur in real life, but that is no reason why they should be allowed on the stage," he said.

SOUTHERN DRUG MERCHANT MAKES UNUSUAL STATEMENT

Great Business Losses Due to Neglect

W. WITHERS MILLER

President of the Polk-Miller Drug Company, Richmond, Va., is authority for the following extraordinary statement:

"I estimate that the business men of this country could increase their efficiency fully ten per cent by taking an occasional laxative and not neglecting the bowels as most of them do."

He also said that if the Department of Commerce in Washington would present each business man in the country with a box of Rexall Orderlies, it would be of great benefit to the national welfare. Rexall Orderlies are prompt in action, pleasant to take and never gripe, can be used by men, women or children, and are just the thing for toning up sluggish livers.

We have the exclusive selling rights for this great laxative. Trial size, 10 cents. **FRANK D. HALL THE REXALL STORE**

Simple Way To End Dandruff

There is one sure way that has never failed to remove dandruff at once, and that is to dissolve it, then you destroy it entirely. To do this, just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find all itching and digging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

MARTIAL LAW IN TENDERLOIN OF HONOLULU, H. I.

(Associated Press Telegram)
Honolulu, Jan. 14.—Honolulu's tenderloin district is under military control today as a result of a systematic raid last night which was participated in by approximately 500 United States troops of the Ninth Cavalry (colored.)

During the demonstrations all the establishments conducted by white persons were wrecked and many of them looted. The reason for the demonstration has not been announced.

When the streets had been cleared the district was left in military control.

STEEL WORKERS AND MINERS GET INCREASED WAGES

(Associated Press Telegram)
Duluth, Minn., Jan. 14.—All the larger mining companies operating in Minnesota and Michigan iron ranges have announced an increase of approximately 10 per cent in wages of all miners effective February 1. The increase will effect about 22,000 employees of the United States Steel corporation. The Great Northern Ore company, Republic Iron and Steel company, and Pickands and Mather companies have followed the steel corporation's example and from 8,000 to 10,000 of their men will be benefitted.

The Lady or the Tiger Riddle.

"Perhaps the most interesting thing about 'The Lady or the Tiger?' " Frank R. Stockton once said, "is its great popularity among the savage races. It has been told again and again by the story tellers of Burma. A missionary once told the story to a tribe of Karens in Burma. When she came back a year later the tribe surrounded her and wanted to know if she had found out whether I cannot answer the question, for I have no earthly idea myself. I have never been able to decide whether the lady or the tiger came out of that door. Yet I must defend myself. People for years have upbraided me for leaving it a mystery. Some used to write me that I had no right to impose upon the good nature of the public in that manner. However, when I started in to write the story I intended to finish it, but it would never let itself be finished. I could not decide, and to this day, I assure you, I know no better than any one else."—Christian Science Monitor.

SALOONISTS

WHO WERE REFUSED LICENSES IN TOLEDO GO TO SUPREME COURT

To Compel Reinstatement, Claiming Violation of Property Rights—Election Board Case.

(Associated Press Telegram)
Columbus, Jan. 14.—Five Toledo saloon keepers who were refused renewals of license by the Lucas county liquor licensing board, whose action later was upheld by the state board, today filed suits in the supreme court asking mandamus orders to compel reinstatement to their license rights. They assert that in view of a recent supreme court decision that a license is a property right, they have been deprived of property unlawfully. None had been convicted of law violation and renewals were refused only on charges of the Lucas county board that they violated midnight closing and sale to minors laws.

Those who filed mandamus cases are Abe L. Kraus, Edward C. Sullivan, John J. Tierney, James J. Foley and Sons, and William Keene. E. R. Effler as counsel filed the cases, and Charles H. Graves is also associated as counsel for the saloon keepers.

Argument was heard by the supreme court today on the suit involving the question of whether Raymond T. Garrison, appointed member of the Lucas county board of elections several months ago by Secretary of State Hildebrandt, may replace John W. Dowd, whose term had not expired. Dowd got a writ of temporary injunction to restrain Garrison from taking the job, and Garrison then sought a writ of prohibition to prevent the Lucas county common pleas court from enforcing the injunction or proceeding further in the case. The argument was heard on this writ of prohibition case.

Courage and Courtesy.

It is recorded of General Sheridan that he was once asked who, in his opinion, was the most reliable of the corps commanders, and he unhesitatingly answered, General Hancock. He said, "If I wanted a man to stay where I put him, if I located him at night and wanted to find him right there in the morning, I'd select Hancock." And then further Sheridan said:

"For genuine politeness and gentle regard for women Hancock was incomparable. If Mrs. Hancock came into his room twenty times in half an hour he would always stand up."

There is a compliment indeed. The bravest commander was the most courteous to women, and what was best of all, he included his own wife among the objects of his courtesy. That is something many men forget—they are courteous to all men except to their own wives.—Ohio State Journal.

Leaping Treason.

King William III. of England was passionately fond of the chase and made it a point never to be outdone in any leap, however perilous. A Mr. Cherry, who was devoted to the exiled Stuarts, took advantage of this to plan the most remarkable design which was ever formed against a king's life. He regularly joined the royal hounds, put himself foremost and took the most desperate leaps in the hope that William might break his neck in following him. One day, however, he accomplished one so imminent dangerous that the king when he came to the spot shook his head and drew back. It is said that Mr. Cherry at length broke his own neck and thereby relieved the king from further hazard.

The teeth of the badger are very peculiar, for, instead of resting on each other when the animal's mouth is closed, they fit into each other.

Backache Just Like a Toothache!

Dear Mr. Editor—Sometime ago I had backache very bad; it would ache just like a toothache. I tried a new discovery of Doctor Pierce's, called "Anuric." This is for kidneys and backache. I soon felt relieved of all backache and had no more pain, and I hope others troubled in the same way will try this wonderful new remedy.

Yours sincerely,
(Signed) MRS. LINCOLN STEARNS.

NOTE: It is now asserted with confidence that these painful effects due to uric acid in the system are entirely eradicated. A new remedy, called "Anuric," has been discovered by Dr. Pierce, and is the cause of a drainage outward of the uric acid with which it comes in contact within the body. It will ward off backache, headache, and the aching pains and aches of articular or muscular rheumatism—of these diseases which are caused by too much uric acid, such as gout, asthma, sciatica, renal calculus. "Anuric" prolongs life because old people usually suffer from hardening and thickening of the walls of the arteries, due to the excess of uric acid in the blood and tissues. Dr. Pierce, who is director and chief physician at the "Invalids' Hotel and Surgical Institute," Buffalo, N. Y., has been testing this wonderful medicine for the relief of over-worked and weakened kidneys. The relief obtained by sufferers has been so satisfactory that he determined to place "Anuric" with the principal druggists in town where people could get this ready-to-use medicine. "Anuric" is not harmful or poisonous, but aids nature in throwing off those poisons within the body which cause so much suffering, pain and misery. Scientists assert this remedy is 37 times more potent than lithia.

For Diabetes and Bright's Disease this remedy is building up a reputation as good as Dr. Pierce's other well-known medicines which have been proven reliable during nearly fifty years, such as Doctor Pierce's Favorite Prescription for the ill of women, Doctor Pierce's Pleasant Pellets for the liver, regulator, and Doctor Pierce's Golden Medical Discovery for red blood.

Tooth Loose? Watch out for Pyorrhea!

When you find a tooth that gives back and forth, even just a little, see your dentist at once.

He will find conditions which you might overlook. He will find a gum recession, even though slight, where the gums have pulled away from the teeth. And he will tell you that you have the dread disease pyorrhea.

But Senreco does more. It cleanses the teeth delightfully. It gives them a whiteness distinctive of Senreco alone. Its flavor is entirely pleasing, and it leaves in the mouth a wonderful sense of coolness and wholesomeness.

Start the Senreco treatment before pyorrhea grips you for good. Details in folder with every tube. A two-ounce tube for 25c is sufficient for 6 weeks' daily treatment. Get Senreco of your druggist today; or send 4c in stamps or coin for sample tube and folder. Address The Santal Remedies Company 503 Union Central Building, Cincinnati, Ohio.

CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

LOOK, MOTHER! IF TONGUE IS
COATED—GIVE "CALIFORNIA
SYRUP OF FIGS."

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue mother! If coated, give a teaspoonful of this harmless "fruit laxative" and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When, its little system is full of cold, throat sore, has stomachache, diarrhoea, indigestion, colic—remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Fig Syrup Company."

25 Years Ago

(From Advocate, Jan. 14, 1891.)

Mr. and Mrs. F. M. Belmar announce the arrival of a son yesterday.

There was a good audience made up entirely of young men in the lecture room of the Y. M. C. A. last night to hear Prof. J. C. Hartzler, deliver his address upon the subject of "Our Country; Its Possibilities."

Mr. G. L. Moore, of Chicago, is visiting his parents, Mr. and Mrs. R. P. Moore. Mr. Moore is an old Newark boy who has attained eminence in railroad circles in the metropolis of the west.

Marshal Griffith today sent some papers to Gil Lillmore, a former Newark citizen, now located in Cadiz, Mont.

15 YEARS AGO TODAY.

(From Advocate, Jan. 14, 1901.)

Mr. Archie White, president of the National Salt Company, left for New York City Sunday. He was accompanied by Attorney C. W. Miller, who will make a visit with him.

The fire department was called to the Tubbs house block yesterday, where a room was set on fire by a spark from a stove.

Mr. William W. Sears, one of the oldest and best known residents of Newark, died at his home in East Main street Saturday evening.

The World War a Year Ago Today—Jan. 14.

Allies withdrew south of the Aisne river at Soissons, France, losing 5,000 prisoners and many guns to the pursuing Germans. The French report said: "The flooding of the Aisne river, which destroyed several of our bridges, had rendered very precarious the communications of our troops operating on the first slopes of the right bank. We were thus prevented from sending them reinforcements. This has been the essential cause of the withdrawal of those troops, which were fighting under difficulties. We were obliged to abandon several cannon as the result of the breaking down of a bridge. We have rendered all of them unfit for use. To sum up, the success is a partial one for our adversaries, which will have no influence on the operations as a whole." Germany reported that the allies crossed the Aisne under heavy artillery fire; also that 35 cannon were captured.

Was 100 Years Old.

Columbus, O., Jan. 14.—"Eae what you want and when you want it" was the longevity prescription of William H. Cheever, who celebrated his hundredth natal anniversary Sept. 19 last year. He died yesterday his home, after a long illness of paralysis.

Mr. Cheever was at one time superintendent of the telegraph lines of the Baltimore and Ohio Railroad. He seldom retired to sleep without first eating a lunch.

Mrs. Cheever, who is nearly 85 years old, survives.

He was formerly in the hotel business at Mt. Sterling.

The funeral services will be held at 10 o'clock tomorrow at the home.

Fine Tonic Bitters For Run Down Women

Women who want to gain strength and energy and desire to have a good stomach, perfect digestion and active liver, should ask T. J. Evans for a big bottle of El Vesvivo Tonic Bitters which costs about 50 cents.

This famous tonic regulates the bowels and is used by thousands for constipation, chills and malaria. A little before dinner creates a hearty appetite, and all people who feel the need of bitters should try El Vesvivo.

Says Hot Water Each Day Keeps the Doctor Away

Drink glass of hot water before breakfast to wash out the poisons.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, when they arise, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives you a good and hearty appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large amount of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, biliousness, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store, which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Newark Grange's Lecture Postponed

The stereopticon lecture on Grange interests in Hindustan that was scheduled for Tuesday night of this week at Central City chapel was postponed on account of the rain and mud.

The lecture will be given on Sunday night, January 16th, 7:30 o'clock in the same chapel by Wm. E. Hopkins, superintendent of Associated Charities, Newark. The views are taken from the lectures, travels and experiences in the Orient and are of the greatest interest.

The social and industrial life and conditions of this land of the east will be shown; methods of farming, and other leading industries will be illustrated by the pictures. The palaces and different classes of homes, customs, amusements, and occupations will be shown. One series illustrates games and plays, including the merry-go-round of the Orient. Every body is invited. Admission free with a collection for expenses. By order of Newark Grange, No. 1004.

EXPERT TO TALK ON ALFALFA, AND HOW TO GROW IT

The Licking Cow Improvement Association has secured Mr. Willis O. Wing of "Alfalfa Farm" to talk to the citizens of Licking county on the subject "How to Grow Alfalfa," at Taylor Hall, Newark, 1 o'clock Saturday afternoon, Jan. 22.

This gentleman is well known as having been very successful in raising alfalfa. His brother, the late Joe Wing, has traveled throughout this and the "old country" studying all possible phases of alfalfa culture, including adaptability of varieties and climate, inoculation, fertilization, etc. This knowledge Mr. Wing has at hand, having it put into practice on his farm. The knowledge gained by these men has been of untold value to the farmer of this country in growing this valuable farm product. Everyone is cordially invited to hear the lecture.

Mr. Wing is one of the officers of The Wing Seed Co., of Mechanicsburg, O.

Dangerous Varicose Veins Can Be Reduced.

If you or any relative or friend is worried because of various veins, or bunches, the best advice that anyone in this world can give is to get a prescription that many physicians are now prescribing.

Ask your druggist for an original two-ounce bottle of Emerald Oil (full strength) and apply night and morning to the swollen, enlarged veins. Soon you will notice that they are growing smaller, and the treatment should be continued until the veins are of normal size. So penetrating and powerful is Emerald Oil that it dissolves extra and waste and causes them to disappear. It can always be secured at Evans Drug Store.

OHIO HARDWARE CONVENTION AT CLEVELAND SOON.

The convention of the Ohio Hardware Association to be held in Cleveland, Feb. 22-25, has excited unusual interest among dealers of the state. The outlook for this branch of business for the coming year is exceedingly good, but the advance in price on a great many articles carried in hardware stores, makes it necessary for the merchants to get all the information possible in order to serve their community as they feel they should and as their customers will expect.

Cleveland being one of the largest hardware markets in the world, with the splendid exhibit made by manufacturers from all parts of the United States, furnishes a great opportunity for Newark merchants to study new goods and to equip themselves in every way to best care for their trade.

Conventions such as these are a real necessity and should be attended by every dealer who can possibly go. They make better merchants. As one dealer expressed it "There is nothing that puts as much enthusiasm into my business as my annual trip to our state convention. It is impossible not to bring home with me a lot of practical ideas which add new life to my business."

Over 12,000 students are taking courses in farming at the various agricultural colleges in the United States.

HERE'S INTERESTING
NEWS FOR THE WOMEN

The T. L. Davies Dry Goods store
received this noon an express ship-
ment of thirty-five fine plush coats.
These garments were purchased from
one of the leading manufacturers at
about one-third less than the regu-
lar price and they are going to be
sold on the same basis. These coats
represent the very latest winter
styles in loose, belted and fur
trimmed models. Every one is
tailored from Salt's or Dobson's
plush and is absolutely guaran-
teed against crushing or spotting
from water, snow, etc. The regular
price of these handsome coats range
from \$27.50 to \$37.50. They will
be placed on sale tomorrow at
\$19.75, \$23.75, \$24.75 and \$27.75.
Beware in mind that when you pur-
chase one of these coats you get a
season's shawl and they are guaran-
teed and is not to be compared
with the inferior silk plushes that
give such unsatisfactory wear. 14-11

For Pension Increase.
Congressman Ashbrook has intro-
duced a special pension bill asking
for an increased pension for Mrs.
Joseph Sawyer of Coshocton, widow
of a veteran of the Mexican war. He
asks \$20 a month for the widow.

Mrs. Chas. Welch III.
Mrs. Faye Weakley has gone to
Zanesville on account of the illness
of Mrs. Charles Welch, formerly of
Newark, now 225 Lee street, Zanes-
ville. Mrs. Welch, whose speedy re-
covery is hoped for, has been ill with
nervous rheumatism for the past
fourteen weeks.

Sister's Death at Coshocton.
Mrs. Jennie Coyne of North 5th
street was called to Coshocton today
by the death of her sister.

Called Home by Illness.
Harry Bailey, who is employed in
Akron, has been called home by the
illness of his grandmother, Mrs.
Rachel Bailey of South Pine street.

Successful Indoor Innings.
The second indoor inning of the
Elks was held last evening at Schal-
ler's Hall in West Main street, an
excellent luncheon being served by
William Gray and assistants. One
hundred and fifty Elks were in at-
tendance and the evening was pas-
sed in a social way, good time being
enjoyed by all. Stewards Col. Billy
Hohl and brother Johnny looked after
the comforts of the guests and
saw to it that all were amply sup-
plied with the many good things
which had been prepared by the
chef.

Watch for Hurley.
At police headquarters today
cards were received bearing descrip-
tion and pictures of Otis Hurley
known as the "prison demon" who
escaped from the hospital for the
criminal insane at Lima. His es-
cape was made last Monday and
local officers have been asked to
keep watch for the man.

Drunks Fined.
Friday morning's police court
docket included three men charged
with being drunk and one charged
with prowling. Fines of \$5 and
costs were assessed.

Frazeyburg's New Mayor.
W. S. Lemert has been appointed
mayor of Frazeyburg owing to the
resignation of Mr. Riley. Joseph
Ashcraft who resigned as clerk has
been succeeded by J. H. Schosler.

Held Successful Sale.
A very successful public sale was
held by C. Frazier on the Henry
Butt farm two miles west of Hebr-
on, Wednesday. The sale was
managed by E. J. Chase and cried
by R. V. Juel. Everything brought
a good price and at the conclusion
of the sale an excellent supper was
served free to those who had pur-

chased and all others who cared to
participate. Mr. Frazier also passed
around good cigars.

Damage by Rabbits.
Fruit growers in Sandusky and
Ottawa counties have begun a war-
fare on rabbits on account of the
extensive damage they are doing
to fruit trees. The owners of orch-
ards are employing men to kill the
destructive rabbits.

High School to Glenford.
Newark High's basketball team
went to Glenford today where a
game will be played tonight with
Glenford High school.

Enlarged Offices.
The rapidly increasing business
of the law firm of Kibler & Kibler,
located in the Newark Trust building,
has necessitated the annexing of an-
other room to the present suite of
offices. The firm now occupies rooms
Nos. 1007-1008-1009-1010. The new
office was ready for occupancy to-
day.

Springfield, O., the man who drew
up the charter recently adopted by
the city of Springfield, will address
the Men's Club of the Trinity
church, in East Main street, Feb. 1.
Mr. Tatum's subject will be "Com-
mission Form of Government."

Mr. Dase Critically Ill.
Mr. Henry Dase, 87 years old, is
critically ill at his home in 40
German street, suffering with pneu-
monia.

KENYON PLAYS
DENISON FIVE
SATURDAY EVE.

Granville, Jan. 14.—Denison will
oppose Kenyon here Saturday eve-
ning in the second game of the Ohio
conference season. Two victories have
been secured to date with no defeats
to record for the "Big Red" quintet
last year.

Last year Kenyon threw about
10 shades of blues around the Gran-
ville gymnasium when it unexpected-
ly held Denison almost even in the
first half. Denison took the game in
the second session after some fast
team play. It is reported that Shafer,
Kenyon's star forward, will be out of
play due to an athletic heart.

The grip has arrived in athletic
circles here and Gordon Lang, for-
ward on the five, is its victim. It is
thought he will be in condition to
meet the Wesleyan quintet which ap-
pears here next week.

MASSEURS AND
OTHERS AWARDED
STATE LICENSES

A. J. Kennedy and J. D. Montgom-
ery of the Newark Sanitarium, both
were awarded certificates to prac-
tice electro-therapy, hydro-therapy
and massage by the state medical
board, following examinations re-
cently in limited branches of medi-
cine. Ben. B. Craghton and Gale
Drummond both practice chiropractic.

Charles E. Robishaw of Mt. Vernon
was awarded a certificate to prac-
tice hydro-therapy massage and
Swedish movement. Charles E.
Welch also of Mt. Vernon was au-
thorized to practice electro-therapy,
hydro-therapy, merchan- therapy
massage and Swedish movement.
Both Mr. Robishaw and Mr. Welch
are well known in Newark.

NEWTON CHAPEL

Mrs. R. B. Stone entertained her
Larkin club last Thursday with a
quitting party. Those present were
the Mesdames Wilson, Claggett,
Long, Ashcraft, Miller, Wilkin,
Toothman and Miss Cora Chilcote.

Mrs. Nelson Wilkin and children,
Margaret, Mary and Charles spent
Sunday with Mr. and Mrs. Lewis
Lyman and family.

Mr. Benjamin Miller is spending a
few days with his parents of Mt.
Gilead.

Mrs. Fannie Forsythe and daugh-
ter Virginia of Newark spent Sun-
day with Mr. and Mrs. Ora Pound
and family.

Miss Mary Bebout was the guest
of Miss Cora Chilcote last Sunday.
Little Miss Mary Wilkin is on the
sick list.

Hardly.
Mrs. Klawer—Do you consider Alice
very good looking? Mrs. Blunderby—

MRS. ROBINSON FINDS THAT WORDS ARE INADEQUATE

Resident of Central Avenue Says of Nerv-Worth: "I Cannot Praise It Enough."

Some time ago T. J. Evans, the Warden block druggist, who has sold over 5,000 bottles of Nerv-Worth during the past year, received the following testimonial from Mrs. George Robinson of 200 Central avenue, city:

"Before taking Nerv-Worth I was very nervous. Sleep and appetite poor. Had pains in my head. Suffered with indigestion and was so dizzy so much of my time. After taking one bottle of Nerv-Worth could see change. Am now on my fifth bottle. Expect to continue its use for a while longer. Cannot praise it enough for the good it has done me."

This was a stubborn case but not too stubborn for a single bottle of Nerv-Worth, the wonderful tonic, to bring relief to Dollar back at the Evans store it Nerv-Worth doesn't help you. (adv.)

UTICA SCHOOLS UNDULY CROWDED; SHORT SESSIONS

Utica, Jan. 14.—Because of the crowded conditions in some of the rooms of the local schools, the board of education has ordered half day sessions in several rooms. In some cases 81 pupils are crowded into a room intended for 35 or 40. Pupils are required to study at home.

The Standard Oil company is seeking a location for a gasoline station in this village. An attempt was made to secure the old Advance Glass company site, but Fred Wolpert of Newark stated that this site was being retained for future use. Utica people see in this statement future factory possibilities.

Marshall Hobbs and Constable Vance last Sunday raided a poker game in the Bell addition, arresting six players who pleaded to charges of gambling.

William Woodruff, residing east of town found a homing pigeon bearing a band with the marks "A. J. 15-67447."

Utica is to have a new automobile sales agency, Rambo & Quick. A new garage is being constructed in which the firm will locate.

Knox county commissioners have assured Utica residents that the road from this village to Martinsburg will be paved this spring. Local people are now endeavoring to induce the Licking county commissioners to pave the single mile between the village and the county line.

RUMANIAN AT NEIL AVE. CHURCH

Mr. John Socach, a Rumanian student in Denison University, will speak to the Epworth League of the Neil Avenue Methodist church Sunday, January 16. Mr. Socach spoke some time ago at the First M. E. church. All who would like to hear this eloquent young man are invited. The service begins at 6:00 o'clock. He will make the meeting interesting by singing Hungarian and Rumanian songs.

BETTER THAN GLYCERINE In keeping the face and hands, soft and smooth, is Sheeran's Cream of Quince Seed. It is cheaper when you consider its superior qualities and the length of time a bottle will last. It is a delightful protection for the face and hands from exposure, water, etc. Price 25c. Evans Drug Store.

CHRISTIAN ENDEAVOR WORK. The Maple avenue Christian Union church is making elaborate plans to observe Christian Endeavor week Feb. 6-13 in a fitting manner. A program is being arranged that will over the entire week, giving a snappy wide awake meeting or entertainment each night except Tuesday. Special speakers and entertainers are being engaged, and the Christian Endeavor of the church will give a C. E. cantata one night during the week.
